FORD APPROVES GUARANTEED PAY IDEA

New Scout Chairman Named for District

SPEAKER AT THE ANNUAL BANQUET of Fayette Scouters was William MacKenzie (standing), Scout commissioner for Central Ohio. Flanking him are Kenneth Chaney (left), district commissioner, and Ed Moser, district chairman. (Record-Herald photo)

Colin Campbell is the new district chairman of the Boy Scouts of America. He was elected at Wednesday evening's dinner meeting of Fayette County Boy Scout leaders and executives and their wives at the Country Club.

Theme of the meeting was "The Scouting Partnership," stressing the vital part wives play in their husbands' Scouting.

A tribute to the ladies was a part of the recognition program, during which service pins were awarded to two Scouters.

Veteran Scouters' awards were presented to Kenneth Chaney, Fayette district commissioner, who received a 10-year pin, and James Yates, who was awarded a 20-year pin.

The speaker was William MacKenzie, Scout commissioner for Central Ohio, who spoke on "The Youth We Serve."

Reports by the chairmen of the various district committees followed, with the stress falling on membership in Scout units across the county. The total membership at the end of 1954 stood at 518 boys and 288 adults, bringing the grand total of Scouts and Scouters to 857

Reports on camping made mention of county units' participation in the Scout-O-Rama, the fall Camporee, Camp Lazarus and ten-day camping experiences.

Leader training, administrative meetings, community service and sharing of the cost of Scouting came in for discussion.

The meeting, opened by the invocation delivered by Rev. Clinton Swengel, followed the banquet. District Chairman Ed Moser led the meeting.

Among the guests were Donald Murdock, chairman of the Community Chest, and Mrs. Murdock; Perse Harlow, secretary of the Community Chest, and Mrs. Glen Pine, donor of the Scout campsite on the Flakes Ford Road.

2 Doberman Dogs Slay Mistress

TOMS RIVER, N. J. (AP)—A 64-year-old woman was found dead near her summer cottage yesterday, the mangled victim of her two Doberman Pinscher dogs.

State police said the two animals apparently turned on Mrs. Winifred W. L. Bacon and killed her. One of the dogs is male, the other female.

Mrs. Bacons left arm and shoulder were ripped, and authorities said the male dog's mouth and face was covered with blood.

The reason for the attack on Mrs. Bacon, who was a resident of Pemberton, remained a mystery. She had owned one of the dogs for four years and the other for two.

Meanderings

By Wash Fayette

This seems to be a great year for strawberries and some extra choice ones are coming into the local market.

Most of the strawberries are delicious, but I have never eaten cultivated strawberries with the marvelous flavor of the wild strawberries I picked along the fence rows when I was a barefoot boy.

I still recall those wild strawberries, which ranged from the size of a large pea to about one-third the size of the ordinary cultivated strawberries.

Probably because they were so few is what made them so good, but I remember one time when we found an unusually large patch the wild berries and they went into a strawberry cobbler to be eaten with sugar and cream.

I know it is hard to beat the flavor of some of the berries now in the market, and perhaps my recollection may be influenced by something that was really very, very delicious to a hungry boy, but I never expect to find the same flavor in any strawberries as those wild ones picked in years gone by.

Dallas Building Falls, Killing At Least 3

DALLAS (AP)—At least three persons were killed and eight injured when a downtown building collapsed on top of another structure last night. Rescue workers dug through the rubble today searching for other bodies.

Early estimates said as many as 15 might have been trapped in a music store and a combination smashed by the falling building. The two businesses were in a story-and-a-half building. The edifice that first fell was a vacant, three-story structure being razed.

Killed were Luther Gonzales, 32, Alvis B. Simmons, 40, and William E. Kirby, 42, all of Dallas.

One of the injured was a woman, Mary Henjy, 36, of Dallas.

Witnesses said that when the building fell, it sounded like a "bomb" or "explosion." It snapped trolley wires and dumped rubble four feet deep in the street. Bricks hit store fronts across the street.

In the cafe, a stuffed deer head poked up from the rubble, along with counter stools and splintered glass. Musical instruments were twisted almost beyond recognition in the music store.

Police Destroy Marijuana Field

CHICAGO (AP) — Cook county police used flame throwers yesterday to destroy a 10-acre patch of nearly ripe marijuana in suburban Lemont township.

Sheriff Joseph D. Lohman said the marijuana was not growing wild, but had been cultivated. He said the growth, if harvested and made into cigarettes, might have been sold to addicts for as much as $1½ million. Lohman said the patch had been under surveillance for nearly three weeks by deputies seeking to trap the grower.

Baby Whirlwind Hits Atlanta Yard

ATLANTA (AP) — A baby whirlwind danced into an Atlanta yard today, whipped a 100-pound boat 60 feet into the air and ripped a hole in a house roof.

But the wind missed everything else in the yard of Donald E. Magennis.

Petals on rose bushes in the yard were unruffled.

Notice To Yeggs

BOSTON (AP)—The sign on the safe in the office of Builders Specialties Co. read:

"Please do not open this safe as it contains less than $50."

Thieves ripped open the safe anyway, police were told yesterday.

It contained $256.

Fliers Tell Of Their 2 Years In Communist Chinese Jails

HONOLULU (AP)—Four American fliers, chipper and gay despite more than two years of Chinese Communist brain - washing attempts, rejoin their families today.

Nine of their closest relatives, collected from across the United States in an Air Force plane, were scheduled to land at Hickam Air Force Base today.

The airmen — Lt. Col. Edwin Heller, Capt. Harold E. Fischer, Lt. Roland W. Parks and Lt. Lyle W. Cameron—told of their prison experiences at a press conference last night a few hours after they arrived from Hong Kong.

They talked freely but balked on two points—whether they signed a confession to win their freedom and whether their planes crashed in Chinese or Korean territory.

They said they "played along" with Red attempts to brain-wash them and pleaded guilty to Communist charges of "intruding China" and "provocative attack."

But, they insisted they remained unaffected by the Reds' attempts to sell them on communism.

Maj. Gen. Sory Smith, Pacific Air Force commander, struck a sober note. He said: "We have four men here. There should be 15. Please keep that in mind."

Smith referred to 11 other American fliers still held captive by the Communists. The implication was that anything the four might say might be used against the 11.

The warning was clear. It may have been why the men talked little of their worst experiences and much of the lighter side.

The men themselves indicated there was still "40 or 44 American nationalists still in China,' possibly including some Navy personnel. They said they had heard of a Navy plane shot down.

In Washington, the State Department said it believes the Chinese Reds hold 63 Americans.

Heller, who limps from injuries he received in bailing out of his plane, spent two years in a Chinese hospital. Fischer had 11 months in solitary confinement, Parks 8 and Cameron said, "I had it soft, I only had six months."

All agreed they were treated better than they had expected. But that could mean, as Fischer said, "I was glad I was alive."

Their food, Heller said, was

Harry C. Parrett Called by Death

Widely Known Here As Well Driller

Harry C. Parrett, 78, Oakland Avenue, city, lifelong resident of Fayette County and descendent of one of the pioneer families of Fayette County, died in Memorial Hospital Wednesday at 6:45 P. M., following a heart attack suffered Friday. He had been a patient in the hospital since Monday.

Harry C. Parrett

Mr. Parrett was a widely known, expert well driller and followed that work for approximately 45 years, drilling hundreds of wells throughout Fayette and adjacent counties.

It had been said that by reason of the large number of wells drilled, and close observance of the type of material through which the drill passed in each well, he knew more about what was under the surface in Fayette County than any other man.

* * *

IN ADDITION to his well drilling, he also was engaged in farming and plumbing work. For sometime he was interested in a large garage on North North Street.

He was a man of many fine traits of character and as a result made friends wherever he went.

His parents were Capt. Thomas F. and Mrs. Mary Belle Coffman Parrett.

Surviving are his widow, Mrs Madge Parrett; one son, Robert C. Parrett, Washington C. H. funeral director; a daughter, Miss Dorothy Parrett, and a granddaughter, Martha, all of Washington C. H. He also leaves two brothers, Carey G. Parrett of Bloomingburg and Louis C. Parrett of the Chillicothe Highway.

He was a member of the First Presbyterian Church here.

Funeral services will be held Saturday at 1:30 P. M. at the Parrett Funeral Home. Interment is to be in the family lot in the Washington C. H. Cemetery.

Rev. Harold Braden and Rev. Charles Ware will conduct the services.

Friends may call at the funeral home at any time.

Ohio Senate Expected To Cut Poor Relief

COLUMBUS (AP)—The Ohio Senate is expected to cut the state's share of poor relief funds for the next two years.

The size of the slash isn't settled yet. It could be as much as $2½ million, Tom V. Moorehead (R-Muskingum), chairman of the Senate Finance Committee, indicated today. That would reduce the state's relief spending to $29 million in the next two years.

The state welfare department asked for $35 million; Democratic Gov. Frank J. Lausche trimmed that figure to $31½ million. The House approved that amount.

Moorehead said there are two reasons for the impending slash:

1. Real relief needs, with efficient administration, are lower than Lausche's budget request.

2. The state needs every cent it can shave from Lausche's budget for other things, principally schools.

The Republican-controlled Senate began a field investigation of soaring relief costs two months ago.

* * *

IT CONCLUDED some relief standards are too high; that many big city relief agencies can do adequate jobs with less money.

In 1953, the Legislature appropriated $17 million for the state's share of poor relief in the two-year period which ends June 30. But because of the 1953-54 business dip, another $8½ million was added to make up a deficiency in state funds to match the relief spending by cities and counties. That made the 1954-55 total $25½ million.

Said Moorehead of the planed cut in 1956-57 relief appropriation:

"Total poor relief costs in Ohio increased 50 per cent from 1952 to 1954; in the same period costs of medical and hospital services for poor relief recipients increased 100 per cent.

"A study reveals that wide variations exist throughout the state in standards of relief granted and in local policies of administration. The results indicate greater efficiency in administration and stricter policies are possible, which, if adopted by all local welfare agencies, would make possible a dollar saving without reducing service to the needy.

"The reduction that is possible in hospitalization costs added to the other areas of relief administration where costs could be decreased (for example, the payment of debts for relief recipients) would result, it is estimated, in a considerable saving to the state from its relief matching funds."

Girl, 8, Found Brutally Slain

KALAMAZOO, Mich. (AP) — An autopsy showed today that little Jeanie Singleton had been raped, beaten and apparently choked to death by a sex deviate.

The bruised body of the 8-year-old school girl was found late yesterday in a lonely pine woods 15 miles north of Kalamazoo.

Jeannie, left lame by an attack of rheumatic fever four years ago, was last seen 10 days ago resting on a curb a half block from her home on her way home from school.

Farmers Say Wheat Quotas Hurt Rotation

BALTIMORE (AP)—Local farmers have testified in federal court that the government's wheat support program throws crop rotation out of gear.

They were defense witnesses at a hearing of the government's motion for an injunction against farmer Louis Shafer.

The move for an injunction resulted from a trespassing charge brought against three government wheat acreage inspectors. That charge was brought last month after the inspectors had been prevented from measuring the acreage on the Shafer farm.

Frederick A. Feeser of Taneytown told the court he has 19 head of cattle and needs wheat for straw and manure. He was allotted only 12 acres for wheat.

Feeser said he needs 60-70 acres of wheat to keep his rotation system going.

Wilbur Stonesifer said he "can't rotate" because he only got a six-acre wheat allotment on his 92-acre farm.

Earlier Rolla M. Myers of Attica, Ohio, testified he was "refused" his right to vote on quotas in the last referendum because the committee which allotted acreage didn't give him enough to make him eligible to vote.

Marilyn And Joe On Friendly Date

NEW YORK (AP) — Marilyn and Joe had another date last night, but it doesn't necessarily mean that Miss Monroe is about to become Mrs. Dimaggio again.

"We're just good friends," Dimaggio said. "We do not plan to remarry. That's all I care to say."

He took Miss Monroe to a preview of her new film, "The Seven Year Itch," at a Times Square theater and then gave a party in honor of her 27th birthday at a midtown restaurant. The couple was divorced last Oct. 27 after a 10-month marriage.

Hail Hits Kansas

GREENSBURG, Kan. (AP) — An estimated five inches of rain and hail yesterday deluged central Kansas. Some farmers reported a total loss of wheat.

3,000 Prospectors Ready For Big Rush For Claims

BAKERSFIELD, Calif. (AP) — A uranium stampede reminiscent of California's roaring gold rush days is expected to hit Kern River Canyon, 40 miles east of here, tomorrow morning.

Predicting an "explosive situation," Sheriff Leroy Galyen has ordered 75 armed deputies into the canyon today. They will confiscate all firearms.

Up to 3,000 prospectors may swarm into the area to stake a similar number of 20-acre claims when the land is opened for staking at 10 a. m. The area comprises some 60,000 acres.

Already located there are two mines. One consists of the Kergon claims, held by the Great Lakes Oil and Chemical Co., and the other is the Miracle Mine of the Wyoming Gulf & Sulphur Co. Miracle has shipped more than $4,000 worth of uranium 308. It is California's richest uranium strike.

Miracle also has been stockpiling ore pending settlement of a claims dispute which has resulted in widespread confusion among prospectors.

After uranium was found in the area, fortune hunters rushed in with the same enthusiasm which marked the search for gold a century ago. Stakes were driven all over the rough hillsides, which form the west flank of the Sierra.

And then it was discovered that the land had been withdrawn from the public domain some 30 years before, at the request of the Southern California Edison Co., to become a power reserve. Prospectors immediately sought the assistance of the Atomic Energy Commission.

They were successful and the area reverted to public domain. For a time it was believed that the claims already staked would be validated. But the Bureau of Land Management ruled otherwise.

This meant that the stakes must be driven all over again, to remove the stigma of trespassing, and it is the reclaiming process which will start tomorrow.

Virginian Wins 2,500 Contests

HOLLYWOOD (AP) — It was 32 years ago that G. Gordon Browder of Norfolk, Va., entered his first slogan contest and won $5.

He estimates that since then he has won 2,500 contests for a total of $20,000, 17 trips, five automobiles and a college course in business.

Browder is in Hollywood to explore the possibilities of a movie about his life.

Detroit Paper Says Action 'Unprecedented'

Report Declares Firm To Set Up $55 Million Fund For Employees

DETROIT (AP)—The Ford Motor Co. has accepted in principle the United Auto Worker unions guaranteed anual wage demand, the Detroit News reported today.

The newspaper, saying it had learned this from "a high union official," reported that the Ford offer entails a $55 million fund "unprecedented in industry."

"It appears to represent some of the thinking of both Ford's previous 'partnership in prosperity' offer and the union's guaranteed annual wage plan," the News said.

"It accepts the principle of providing for a Ford employe while he is out of work—the principle on which UAW President Walter Reuther insists."

The News said this was the gist of the Ford offer as it obtained them from the union source:

"Payments based on a percentage of each weekly payroll will be made into the fund.

* * *

"UNDER THE plan, when a Ford worker is laid off he would draw his customary state unemployment compensation.

"When he had exhausted these state benefits, he would begin drawing from the company's job security fund. The size of the weekly checks from the fund we not disclosed by the union official."

State unemployment compensation payments vary widely between states. In Michigan the average state payment to an unemployed worker is $30.13. The national average is about $25.

The UAW, in its widely-publicized guaranteed anual wage plan, has been trying to get the auto industry to commit itself to pay idle workers 80 per cent of their normal gross earnings for as long as a year, less any state unemployment payments he might receive.

The union met this morning with Ford negotiators and this afternoon with General Motors.

With the emphasis in the auto industry negotiations previously on Ford, the imminence of a showdown with GM led to speculation that both major auto firms were equally under the union's fire.

The union pledged in granting the Ford contract extension to Monday, that the UAW would stage strikes in all 57 Ford plants then if there was no "satisfactory" settlement.

The union still was pressing its guaranteed anual wage demand calling for year-around pay for workers laid off in slack production periods. Ford's first counterporposal to this demand was a combination offer to permit workers to buy Ford stock at half price, borrow during enforced idleness and get severance pay upon discharge.

Carl Stellato, president of Ford's biggest local at the huge Rouge plant here, told a workers mass meeting yesterday afternoon that Ford had bettered this offer, but he declined to reveal details. He said a half dozen union economists were trying to evaluate the ne Ford proposal.

* * *

THE NEW FORD offer was reported in other quarters to contain a plan for the company to augment present state unemployment compensation payments to furnish workers with continued income during periods of idleness in slack production periods.

Witch Doctor Held On West Coast

LOS ANGELES (AP)—Police are holding a man they say claims to be a witch doctor.

Officers said Florentino Morales, 54, has been treating ailing Los Angeles residents with an assortment of equipment including black candles, effigy dolls, silk scarves and plaited hair switches.

He was arrested after an ailing housewife said he agreed to cure a pain in her chest for $300 with a treatment including a candlelight ritual dance. Morales was jailed for practicing medicine without a license.

The woman, Mrs. Geronima Banuelos, 42, is in a hospital. Her ailment has not yet been diagnosed.

Father and 3 Sons To Go To Prison For Car Thefts, Including One Here

A father and three sons, who were involved in automobile thefts in Washington C. H., Hillsboro, Georgetown and other places, have been sentenced to the federal penitentiary.

The father, Glen Lovely, 46, of Union, S. C. was given five years in federal prison and his three sons each drew one to three years.

The sons are Milton, 23, Edwin, 22, and Burton, 20, all of Union, S. C. The father operated a service station and used car lot where he disposed of the cars stolen in several states.

In passing sentence Judge J. M. Duffel of the federal district court at Cincinnati, said ironically to the father:

"You should be proud of the raising you are giving your sons".

FBI agents who were called in on the thefts, said the group had stolen at least 19 cars in Washington D. C., Ohio and Kentucky.

The court also was told that the father planned the thefts and the sons were dominated by him and required to assist in the thefts.

Lovely and one of his sons were arrested by police in Hillsboro while they were waiting to steal a car from a used car lot when night came. The other two sons were nabbed in Union.

Their plan was to contact used car dealers, pick out an exceptionally good car, and ask for a test of the car. During the test they would obtain the number of the ignition key, have a duplicate made, return to the used car lot at night and drive off with the car.

This method was followed at the Houseman Auto Sales used car lot on West Market Street here, where the father and one of the sons came back at night with a duplicate key and drove the car away.

The father probably will serve time in Atlanta Federal prison and three sons in the federal reformatory at Chillicothe.

Yellow Line Crossers Nabbed

Sherriff To Continue Drive On Offenders

Sheriff Orland Hays, continuing his drive against yellow line offenders, arrested two drivers Wednesday and said he expects to continue the arrests in an effort to reduce some of the reckless driving on the highways of the county.

The two arrested for passing on yellow lines were: George E Rhoades, Piketon, and Carlie Marvin Hopkins, Akron. Each posted $25 bond for appearance in municipal court.

A number of such offenders have been picked up by Sheriff Hays and his deputies recently.

Police arrested Jack Ellis Stuckey of Navarre, for driving 39 miles in a 25 mile zone on West Court Street and John K. Burkard, Hillsboro, for 38 miles in the same zone.

Police also picked up two young girls who had run away from home in Springfield, and held them until their parents came after them They were 13 and 16 years old.

Acrobat Squeezes 8 Years Education Into 3 At College

SYRACUSE, N. Y. (AP)—Margaret Gregory, who spent her early years riding a unicycle in her parents' vaudeville act, will be graduated from Syracuse University Monday after squeezing eight year's of education into three.

"I never had a chance to go to school," she says. "We were just never in one place long enough. But mother did her best to teach me the three R's."

When the red-haired collegian gets her bachelor of arts degree, it will culminate three busy years in which she has completed normal four year courses in both high school and college studies.

Miss Gregory, 32, was born in Petersburg, Va, and for 15 yaers was part of the family bicycle acrobatic act.

Newspaper Aide Serves His 'Term'

CLEVELAND (AP) — City Editor Louis Clifford of the Cleveland Press served a one-hour contempt of court sentence yesterday in the custody of the Cuyahoga County sheriff.

The newspaper also paid fines and costs totaling $647 87 imposed in September 1953, when the Press was convicted of ignoring a judge's ruling against photographs at an arraignment in Common Pleas Court. Of the fines, $500 was against Clifford and $100 against Sam Giamo, a reporter. A fine against James Thomas, the photographer involved, was suspended.

The Press carried an appeal all the way to the U.S. Supreme Court which refused to review the case.

Who Profits By Government In Business?

Regardless of costly lessons of the past, there are still numerous politicians, calling themselves "progressive", who continue to advocate government ownership, or at least much stricter government control of many lines of business. They garner a lot of votes this way and continue to "sound off" in their speeches on the theory that people could thereby get things at cost by eliminating the "profit motive".

Time after time the fallacy of this talk has been proven but the eloquence of the advocates of "let the government do it" seem to cast a spell over the minds of many individuals who refuse to think through this over-worked theory.

Thousands of tax-paying private companies each year issue their annual financial statements. The amount they show they are paying in taxes would offset many times any so-called gain which any part of the public would receive by the process of wasteful government control. And the owners pay the taxes before they get any business profit return; then they pay again on their personal returns.

Let's see who profits most from the earnings of business by, as an example, looking at five financial statements of certain lines of business.

A well known hardware and household supply company: dividends and interest to stockholders, $1,156,000. Dividends to government (taxes) $1,488,000.

A small corporation dealing in patents, electronics, etc.: dividends to stockholders, $1,400,000; dividends to government (taxes) $3,300,000.

A midwestern railroad: dividends to stockholders, $10,278,000; dividends to government (taxes) $10,409,000.

A moderate sized electric company: dividends to stockholders, $4,000,000; dividends to government (taxes) $7,700,000.

A large oil company: dividends to stockholders, $49,000,000; dividends to government (taxes) $139,700,000.

On every business the government takes over, it loses the taxes because government business is tax-exempt. But government's need for taxes is not thereby reduced. Instead it is increased, and the lost taxes are loaded onto remaining taxpayers as one penalty for socializing American enterprise.

Unique Job: Guest Finder

By Hal Boyle

NEW YORK (AP) — In the antic, frantic world of television there are many odd jobs.

Pretty Mary A. Kelly, who is regularly kissed by a chimpanzee and recently rubbed noses with a $750,000 horse, has one of the oddest. She is a "guest finder."

Miss Kelly, a rugged, bountifully built young lady with Irish redhair and hazel-green eyes, is a feature editor and writer on Dave Garroway's "Today," an NBC network morning program. But one of her chief chores is to rout famous guests from their beds in time to appear on the show.

"Four out of five days I have to be up by 5 o'clock," said Mary. Usually she knows the night before the guest she is supposed to meet.

But sometimes the studio phones her at 4 a. m. to tell her she is to pick up Mrs. Franklin D. Roosevelt at her hotel, go down the bay to get comedian Jerry Lewis off an incoming liner and steer him through customs, or race out to the airfield to meet a missionary just released from Communist China.

On one quest, finding the hotel elevator unattended, Mary stepped in and operated it herself, managing to hit the right floor after a few misses. On another, a hotel detective, seeing her sitting in the loby, asked her mission, and Mary replied:

"Trying to pick up a guest."

This seemed to confirm the detective's worst suspicions.

"It took a phone call to the network to straighten that out," said Mary, laughing.

Miss Kelly, who started as a typist for a Hartford, Conn., insurance firm, came here at 19 and landed a job as a newspaper copy girl. Later she worked for a feature syndicate before going into television.

Only once has Mary let a guest get away. One morning she went to pick up Ava Gardner and found the film star had moved out the night before without leaving word of her new address.

Her toughest assignment was to find Alexander Kerensky, head of the Russian provisional government in 1917, the morning Premier Stalin died.

"All we knew was the street he lived on," she recalled. "So I started pushing strange doorbells. He didn't have his name on his doorbell, but I finally found him."

Nathan Hale's 200th Birthday

By George Sokolsky

On June 6, the 200th anniversary of Nathan Hale's birth will be celebrated in Coventry, Connecticut. Nathan Hale studied at Yale, joined the Revolutionary Army, was stationed in New York as a captain. The Revolutionary headquarters were on Harlem Heights. The city of New York, which was in those days downtown, was held by the British who were welcomed by the many Tories who preferred prosperity to freedom.

Nathan Hale voluntarily undertook to walk through the enemy lines and report to George Washington on conditions within the city and the general attitude of the people. He dressed as a Dutch schoolmaster, and with success he managed to get the desired information. Somehow he made his way to Long Island and was on his way back to Harlem Heights, when he was caught, convicted of espionage and hanged.

His last words on the gallows were: "I regret that I have but one life to lose for my country."

Nathan Hale was a voluntary spy and informant. He is remembered in American history only for that and for his immortal last line. No other event in his short life — he only lived 21 years—is noteworthy of historical memory.

Had King George III won the Revolutionary War, many great figures in our history, who staked their lives, their property and their sacred honor, in the cause of the Revolution, would have been hanged. Among them would undoubtedly have been George Washington, Thomas Jefferson, John Hancock of the enormous signature, and such firebrands as Samuel Adams, James Otis and Patrick Henry.

But the Revolutionists won the war and Nathan Hale went down in history as a patriot who spied for a good cause and proposed to inform on those who were enjoying the hospitality which the rich New York Tories were showing the British.

Nathan Hale's memorable last words used to be taught to children in our public schools so that they too would be impressed by the ideal of patriotism. In these days of greater wisdom, patriotism is eschewed as excessive nationalism and our children grow up without even knowing the name of Nathan Hale.

They also do not know about General Benedict Arnold, the close friend of George Washington, who became a traitor.

So, there is the contrast, Nathan Hale, the heroic informant, and Benedict Arnold, the traitor. In these days of excitement over spies and informants, it is interesting to recognize that informants existed at the very beginning of our nation. There was no FBI but there were informants. And undoubtedly among them must have been the womenfolk of the "liberty boys," that voluntary organization, mostly of the newer immigrants, including many from Ireland. These women worked in the very homes where the Tories were entertaining the British and surely they remembered much that they heard and got word to George Washington and his staff.

How does one get information without informants? Perhaps the current body of informants will band together into a society called "The Sons of Nathan Hale," who would then be their patron saint and give an historic halo to their activities. A few names of informants have become well-known, such as Louis Budenz, Elizabeth Bentley, Benjamin Gitlow, Herbert Philbrick, etc., etc., and there has, of course, been Harvey Matusow, who would by now have been expelled from such a society as unworthy.

But always there will be spies and informants and wherever there was statues or other memories of Nathan Hale, at Coventry, at Yale, or in New York, there must be a reminder that the vocation of spying and informing is a risky one which may lead to death or the contempt of other men. The compensation is a self satisfying emotion that one has done something for his country that others would not do. The young man or woman who infiltrates the communist party for the FBI, and there are many of them even today, is taking all the risks that Nathan Hale took and while death may not come on the gallows, it may come, as it did to Carlo Tresca, from a bullet on a city street. But it is worth it if the country needs that kind of anonymous work.

And as long as Americans are to be found who will risk greatly for their country, we shall be a strong nation.

WEARING INDIVIDUAL costumes of their own choice, the four surviving Dionne quintuplets leave their home near Callender, Ont., for a rail trip to Montreal. Their mission, to make arrangements for release of a trust fund estimated at nearly $1,000,000, which becomes their own now that they are 21. Mayor Is Accused In Arson Case

PAINESVILLE (AP)—The mayor of nearby Mentor Lake has been charged with attempted arson of a next-door neighbor's home.

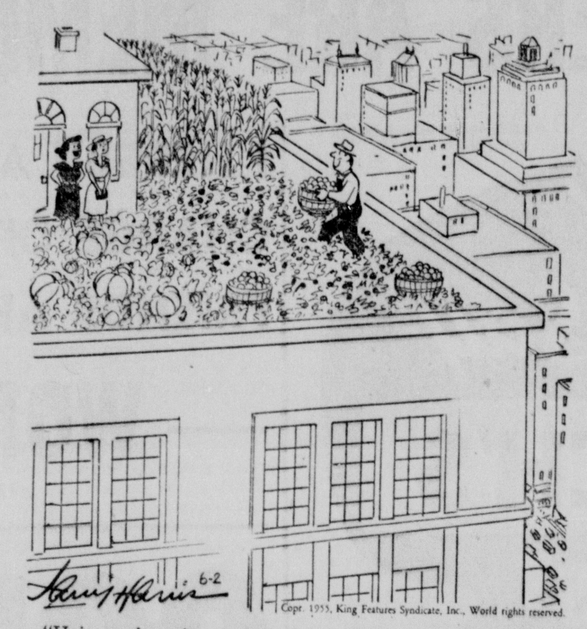

C. G. McKinley, the mayor, pleaded innocent to the charge at his arraignment in Municipal Court here yesterday and was freed on a $1,000 cash bond.

Assistant County Prosecutor Henry Rand said McKinley tried to set fire to the small frame home of Mr. and Mrs. Garland Hickman, who live in Mentor Lake. The Hickmans, who have been living in the house six years, purchased it from McKinley. Rand said McKinley admitted throwing oil against the house but denied he intended to ignite it.

Diet and Health

Diet May Be Cause If You Have Hives

By HERMAN N. BUNDESEN

The allergy known as hives is frequetly caused by sensitivity to certain goods.

It's an easy matter for doctors to diagnose the disorder. Intense itching generally is the first symptom, followed by the appearance of swellings on the skin. The swellings vary in appearance from small pinhead spots to areas as large as a dinner plate, and they contain fluid.

Come and Go

Ordinarily, crops of hives come and go. The lesions remain in one area for several hours and then disappear only to reappear elsewhere. The lining membranes of your mouth, stomach and throat may also be affected by the painful swellings.

There are various methods of treatment. First, your doctor must determine what is causing your allergy. While dust and pollens sometimes are responsible, the cause of hives usually can be traced to foods.

Simple Diet

I would suggest you eliminate the following foods from your diet at the first sign of hives: Cheese, chocolate, mushrooms, onions, tomatoes, eggs, pork, citrus fruits, melons, fish (especially shellfish), pickles, garlic and alcoholic beverages. Sometimes hives can be blamed on wheat, milk, nuts, certain fruits and vegetables. Your diet should be simple and low in proteins.

If your case of hives is attributed to foods, your doctor may suggest you take castor oil or an enema to relieve a fresh outbreak. This usually is followed by a dose of sodium bicarbonate to irrigate the colon.

He may then prescribe cortisone or hydrocortisone. Both have produced good results. Epinephrine injections, lime or calcium preparations are also of value.

QUESTION AND ANSWER

L. M.: What causes blood pockets in the first layer of the skin on the arms?

Answer: This is probably what is known as purpura. A person with this condition should consult a physician. Have a careful checkup, including a complete examination of the blood so that the clotting time, bleeding time and the number of blood platelets, which help in the clotting of the blood, may be determined.

The Nation Today

James Marlow

WASHINGTON (AP) — The Kremlin's present rulers seem to be trying hard to show they're different from their old boss, stolid, stubborn Joseph Stalin.

This may go far to explain why the Russians of late have been acting moderately and even cooperatively, as they did in letting Austria have independence.

They probably figured it was time for a switch, that they could catch more flies with molasses than vinegar. Stalin was a real Vinegar Joe.

He got Russia into a dead end. With his inflexible harshness he forced the Western allies into rearmament and unity, the last thing Russia wanted.

Three of the top Russians, visiting Yugoslavia under the eyes of Western newsmen, act like go-getting businessmen admiring a competitor's establishment.

They examine a Yugoslav factory and commend the amount of cement that was used to build it. They say publicly their own Russians depend too much on steel.

Their performance to date—in public—has been a combination of visiting firemen, jolly good fellows and cousins to the Yugoslavs.

Nikita S. Khrushchev, Russia's Communist party boss, gaily explains to an Associated Press reporter why he talks so fast: "Life is short. Live it up."

While their flat tire is being fixed, Khrushchev and Anastas I. Mikoyan, deputy Premier, have a friendly wrestle in the fields in full view of onlookers.

If the West has obtained one clear insight from the visit of Khrushchev, Mikoyan and Premier Nikolai A. Bulganin, it's this: Khrushchev is the real boss of Russia.

This was the first chance Western observers have had to see these leaders in public day by day and in varying situations and watch for signs of leadership.

I was Khrushchev, head of the Russian Communist party, and not Bulganin, head of the Russian government, who did most of the talking.

Stalin, fixed in his ways, moved ahead by plunging forward like a bull. He never seemed to change. And almost every time he moved he made new Western enemies. That sardonic, seldom-smiling man must have been hard to take even by his intimates.

There can be no doubt Khrushchev and the others want precisely what Stalin wanted: a Communist world. The difference between Stalin and his successors is not in aim but in tactics.

The new Kremlin men are trying to appear better natured and more reasonable. If in that way they can soften up the West and weaken the alliance, so much the better for them. If it doesn't work, they haven't lost anything.

It's possible the Russian leaders have decided that a hydrogen bomb war would mean disaster for everyone and that therefore they had better try to get along with the West without war, although still not abandoning their long-range goal.

But that has to be demonstrated by their future actions. They haven't done much more than talk yet. It's possible they've decided the obvious dictator type, like Stalin is old fashioned and has to be replaced by smoother methods.

Senate Votes Increase In Postal Pay

WASHINGTON (AP) — The Senate wednesday passed a bill to raide salaries of the 500,000 postal workers an average of 8 percent after being assured it was acceptable to President Eisenhower.

The rollcall vote was unanimous.

The Senate debated only half an hour, and sent the bill to the House where the Postoffice and Civil Service Committee plans to meet on it Thursday.

It is a substitute for a postal pay hike measure vetoed by the President May 19. That measure carried pay raises averaging 8.6 per cent and fringe benefits which took the over-all total up to 8.8 per cent.

The bill passed today gives each postal employe a 6 per cent raise retroactive to March 1. The additional 2 per cent involves reclassifications features demanded by the President. These will mean much larger increases than the average for some upper-bracket employes.

Before final passage, Sen. Butler (R-Md) attempted to add on an amendment to give 8 per cent pay raises to the one million classified civil service employes.

But Republican Leader Knowland (Calif) raised a point of order against this, contending it was not germane to the postal measure. Sen. Barkley (D-Ky), the presiding officer at the time, sustained the point, killing the amendment.

Skid Row Hotel Owners Rapped

CHICAGO (AP)—A coroner's jury of building experts has condemned the owners and operators of a skid row hotel "for gross negligence" in a fire fatal to nine.

The fire occurred May 6 in a hotel where 77 men were sleeping in 6 by 7 feet cubicles with corrugated iron walls and wire screen ceilings. Cause of the blaze was not determined.

The jury said "gross negligence" is not tantamount to "criminal negligence." It said the hotel management did not notify the fire department properly and the employe on duty made no attempt to fight the fire himself.

Celestial Spots May Be Moons

Mysterious Sights Seen By Amateurs

By FRANKLIN JOHNSON
(Central Press Association)

CHICAGO — Tangible evidence that the earth already may have many small "moons" similar to the man-made satellite some scientists are advocating may have been uncovered by a pair of amateur astronomers at Skokie, and Wauconda, Ill., near here.

John P. Bagby and Richard Hoipuch have captured the attention of star gazers around the world with their reports of observations at various intervals during the last 12 months of what appear to be about 100 "moonlets" at an approximate height of only 475 miles

Bagby recently reported on their findings in a scientific paper he read at the Adler planetarium here, and during coming months he hopes that other amateurs as well as some professionals in all parts of the world will double check the observations.

Interest in any tiny heavenly bodies that might be circling the earth has been steadily increasing in recent years with the speculation that man's first real excursion into space would be in that form, first with a robot satellite and later in one he might ride.

* * *

LAST AUTUMN it was revealed by Dr. Lincoln La Paz, head of the Extra-Terrestrial Bodies institute at the University of New Mexico, that he had investigated for the Air Force two meteors which apparently have become attached to the earth as perpetually revolving satellites at heights of from 400 to 600 miles.

Jitters over recurrent reports of flying saucers and other such phenomena have caused speculation that the objects observed by Dr. La Paz, as well as those seen by Bagby and Holpuch, may be maneuverings by some intelligent creatures from outer space or perhaps man-made satellites secretly launched by someone here on earth.

These are discounted by astronomers, however, and Bagby points out that the failure heretofore of telescope operators to spot the small satellites may be the natural result of most observations being made on high powered equipment designed to penetrate ever deeper into the heavens.

When Babgy and Holpuch telephoned some of their observations to the Dearborn observatory at Northwestern university and the Yerkes observatory at Williams bay, it proved difficult for them to focus sharply on such near targets and the high speed and diffraction effects prevented positive confirmation.

Bagby and his associates calculated that the objects they have seen may travel as fast as 18,000 miles an hour, taking only an hour and a half to circle the earth. Some may be as close as two hundred miles high.

* * *

IT HAS BEEN calculated that a man-made satellite would "stand still" and remain motionless as viewed from the earth, if its plane lay in the celestial equator. However, this phenomenon would not be achieved unless the object were 22,268 miles away.

The two-inch telescope used by Holpuch and Bagby's six-inch reflecting instrument, built by the amateurs themselves, are more or less ideal tools for spotting "moonlets." The most favorable time to do the observing is when the objects are silhouetted against the nearly full moon or the sun near the horizon

Holpuch first saw them when he and his wife were watching a waxing gibbeous moon shortly after sunset nearly two years ago, and he immediately telephoned Bagby that he was seeing small objects crossing the moon singly and in small groups.

This started a long series of observations by the amateurs and their friends, reaching a climax last autumn when they had a party of 19 other observers on hand to double check them when they again saw the celestial procession.

* * *

BAGBY then turned to astronomical literature, and discovered that from time to time such observations have been reported in the past from Palermo, Sicily. Naples, Mexico City, and Magdeburg, Germany, but they had gone virtually unnoticed.

Although Bagby is an amateur in the sense that his real occupation is that of chief of mechanical design for the Cook Research laboratory engaged in intricate national defense work, he belongs to the Burnham Astronomical society, the American Meteor society and the Royal Astronomical society of Canada, and could qualify as a professional if he turned to that field.

Now he is enlisting the aid of amateurs and professional stargazers throughout the world to correspond with him in future months about their observations of the phenomena, and as a guide in sending them scientific descriptions of his observations.

America's Gallant Males Mystery To Japanese Girls

By DOROTHY ROE
Associated Press Women's Editor

Of all the wonders of the world they've seen, the greatest so far as two Japanese airline stewardesses are concerned, is the American male and the way he goes around offering to carry handbags and open doors for them.

That's not the way they do it back home, they say. For Kikuko Sasaki, 25, and Pumiko Shiba, 21, who regularly fly the Pacific for a Japanese airline, such carryings-on are downright embarrassing.

"We always feel we're taking advantage of these gentlemen," says Kikuko in her prfect English "In Japan the woman always carries the bundles and waits on the man."

"When we land in Honolulu or San Francisco," adds Pumiko, "The men of the plane crew carry our luggage for us, but when we land in Tokyo we carry our own."

Both girls are college graduates, natives of Tokyo, look like Japanese dolls and are enraptured with their new careers as international travelers. Kikulo has been with Japan air lines since it started in 1951, and Pumiko since 1953. They are among 70 stewardesses chosen from 4,000 applicants for the glamorous jobs which opened new horizons to these girls.

In New York for a brief and thrilling visit, they raced from Radio City to the Empire State Building and from Fifth avenue shops to the Museum of Modern Art, determined to cram as much sightseeing as possible into the little time left to them between television appearances and interviews.

After Cemetery Visit, Death Calls

HUMBOLDT, Kan. (AP)—Two elderly women were killed Tuesday night in the collision of their automobile with a Santa Fe streamliner at the north edge of town. The victims, Mrs. Olive Sheldon and Mrs. Norman Dewey, both in their 60s, were returning home after visiting a cemetery.

Second Ohio Tot Felled By Polio

COLUMBUS (AP) — The state health department has confirmed the second case of polio among the 380,000 Ohio school children who received Salk anti-polio shots

Dr. Martin Keller, acting chief of the department's division of Communicable diseases, said it has been determined 8-year-old David Long of Weston, Wood County, has polio.

The Long boy was inoculated with a vaccine turned out by the Wyeth Laboratories, Philadelphia.

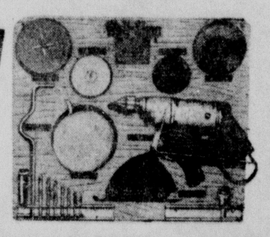

At the same time, Dr. Keller said there were six new polio cases in Ohio last week, bringing the total for the year to 51. During the corresponding week last year, 12 new cases were reported, which brought the 1954 total to 76.

New Officers Are Elected By Sorority

Mrs. Edwin Thompson was hostess at the regular meeting of Alpha Theta Chapter of Epsilon Sigma Alpha Sorority Wednesday evening.

Mrs. Dwight Martin, president, presided over the ritualistic opening and also the candlelight jewell pin ceremony, for Mrs. Howard Burnett, around a lace covered table decorated with the sorority colors, blue and gold.

During the ceremony Mrs. Burnett received a beautiful corsage as a gift of the Chapter.

The usual reports were heard and approved and correspondence was read from International.

Election of officers for the new year resulted in Mrs. Charles Gibeaut being chosen as president, Mrs. Sam Athey vice president; Mrs. Dwight Martin recording secretary; Mrs. David Moore, corresponding secretary; Mrs. Howard Burnett treasurer; Mrs. Gail Mershon point recorder; alternates Mrs. Samuel Wilson and Mrs. Frank Junk and Mrs. Gordon Davis jonquil girl.

Plans were made for the annual picnic for members and their families at the City Park June 12, and the revealing of secret sisters was followed with the drawing of new names for the coming year. Several new amendments were added to the constitution and by-laws and a new finance committee appointed consists of chairman of the ways and means and the treasurer to function during the year.

The meeting was closed according to the ritual and a dessert course was served by the hostess during the social hour.

Jeffersonville WSCS Circles Hold Meeting

The June meeting of the combined circles of the Jeffersonville Methodist Church, W.S.C.S. was held at the church Wednesday afternoon.

Mrs. Harold Zimmerman, president, conducted the meeting and the opening hymn was followed with the praying of the Lord's Prayer by the group.

The secretary Mrs. Ruth Williams gave her report as did the treasurer Mrs. Almer Robinson.

Twenty-two members responded to roll call, and Mrs. Warren Williams reported on an improvement at the church which was a project of the society.

It was also decided to contribute financially to the sending of ten students to Summer Bible Camp at Sabina.

Mrs. Warren Williams led in the devotions using Scripture passages to bring out the meaning of "The Thought for the Day", which was followed with prayer, the singing of a hymn, the poem entitled "Friends."

Mrs. Williams also introduced Mrs. Martin G. Morris, the speaker of the afternoon who reviewed the book "Life and Laughter" by James Whitcomb Broughen, a Baptist minister, who delivered the sermon at the funeral of Will Rodgers.

The book brought out facts of life at its best and was a variation of humor and pathos, which Rev. Broughen, used in his many sermons.

She closed her talk with remarks on the final chapter of the book "Life Begins at Eighty" and Mrs. Annetta Rowe, Mother of Mrs. Morris led in the closing prayer.

During the social hour the hostess committee composed of Mrs. Herman Glass, Mrs. Harry Foster and Mrs. John Ritenour served dainty refreshments.

Mrs. Morris and Mrs. Rowe were guests for the afternoon.

Busy Bee Garden Club Plans for Flower Show At Jeffersonville Soon

Plans for the Busy Bee Garden Club's flower show today were just about complete.

It is to be held in the Jeffersonville High School on June 16 and the competition is open to everyone.

Because flowers are fragile and are at their best only a short time, the show is to be open for only two hours, from 2 P. M. until 4 P. M.

All exhibits must be staged by 12:30 P. M. the day of the show and they must be removed by 4:30 P. M. That means that the whirlwind show is being packed into approxinately four hours—from the time the flowers are brought in and arranged for display until they are moved out leaving the show only a pleasant memory.

Under the rules and regulations, specimen flowers must be grown by the exhibitor and flowers for arrangements must be grown in Fayette County.

Each exhibitor is permitted to make no more than one entry in a class.

All specimens are to be shown in clear bottles furnished by the exhibitors, but foliage and accessories are permissable in the arrangements.

Juniors may enter all specimen classes and word is being spread around that entries of the nonmembers as well as members of the club are wanted in the show.

Mrs. Reuben French is the show's publicist.

OTHER committees are:

Hospitality—Mrs. Chester Janes, Mrs. Vernon Mason, Miss Pearl Hoppess and Mrs. Carl Janes;

Staging—Mrs. Ray Shoemaker, Mrs. Jess Crago and Mrs. Neal Conner;

Registration—Mrs. Hugh Creamer and Mrs. Flora Robbins.

Receiving displays—Mrs. John Sheeley, Mrs. Jesse Garringer, Mrs. Ray Barlett, Mrs. Ralph Davidson, Mrs. Ray Fisher, Mrs. Forrest Moore and Mrs. Ansel Creamer.

Clean-up—Mrs. Leora Booco, Miss Ruth Williams and Mrs. Glenn Brock.

Display cards—Mrs. Ralph Davidson.

Refreshments—Mrs. Ray Shoemaker, Mrs. Harry Hiser and Miss Louise Fults.

The show is to be made up of eight classes of arrangements featuring song titles and 25 classes for specimens.

For the arrangements there will be:

A class entitled "My Blue Heaven" in which all blue flowers and a blue or white container are used;

One for "Summer Lullaby" using a modified crescent;

"Down in the Valley," using all green or a combination of green and yellow green;

"When You and I Were Young Maggie," a mass arrangement;

"Garden of Roses" for an arrangement of roses;

"Tea for Two" a suitable arrangement for a buffet;

"China Town" an oriental arrangement;

"Wedding March" using white and green.

Of the 25 specimen classes, the rules specify one stem for all six classes where three stems are called for, an ornamental house plant, a planter (planted by the exhibitor) and an African violet.

The three-stem specimen classes are for gaillardia, petunias, pinks, snapdragons, annual sweet peas and hardy sweet peas. All stems are to be of the same color.

The other 16 classes all of one stem only, are for hybrid delphinium (any color); common delphinium (blue); lemon lily (any variety); Madonna lily; sweet william; hybrid rose (red); hybrid tea rose (yellow); hybrid tea rose (pink); hybrid tea rose (white); hybrid tea rose (blended); climbing rose (any color); floribunda rose (red); floribunda rose (pink); floribunda rose (yellow); floribunda rose (blended) and an old fashioned rose of any color.

About 9 percent of U. S. children from 1 to 14 and about 14 percent of those from 15 to 17 are orphans.

Town names of Frost, W. Va., and Frostproof, Fla. indicate variations in U. S. climate.

Eagles Get Set For Installation

Colorful Ceremony Is Next Tuesday

The annual installation of officers of Fayette aerie of the Eagles Lodge for the coming year is to be held next Tuesday evening in the hall of the Eagles Building at the corner of Fayette and Market Streets.

Always a colorful and impressive ceremony, the installation service is to start at 8 P. M.

In the light of the past, it is expected to be one of the biggest events of the lodge years and attract one of the biggest turnouts.

Earl G. Allison is to take the oath of office and start his third year as the worthy president of the aerie.

Ernest Pummell is to be installed as vice president, Francis Marion Kennedy as the chaplain, Harold Hatmacher as the conductor, Ward Morris as the inside guard and Corwin Ellars as the outside guard.

Glenn B. Rodgers was reelected as treasurer and will start another term in that office and S. C. (Ched) Roberts is to continue in his place as a trustee.

Terms of the other officers do not expire at this time.

Following the installation, there is to be a lunch and fraternal get-together.

Inasmuch as this is to be one of the lodge's primary ceremonials, it is limited to members only.

Thief, 5, Pledges To Go Straight

CHARLESTON, S.C. (AP) — What may be the latest in applied child psychology came out of the theft of 75 cents by a five-year-old boy from a neighbor here.

His mother called the police. They lectured the boy, who promised to go straight.

Girl Scout Troop To Hold Picnic

The members of Girl Scout Troop 2 met Tuesday at Memorial Hall to plan their future meetings.

The leaders, Miss Wilma Jean Lee and Miss Esther Walton, led the discussion of the next meeting, which will be a picnic next Tuesday at the public park on Millikan Avenue.

The girls will take picnic suppers to the meeting, and will meet at 6:15 P. M. at Lu Ann Foster's home to go to the park together.

They decided to go through the membership roll alphabetically to appoint refreshment committees. Neila Couisins and Lu Ann will provide the refreshments for the June 14 meeting.

The session was opened with the repeating of the Girl Scout promise and laws, and at its close, Rosemary Hargo, Miss Lee and the president, Jacqueline Mosely, served refreshments.

City Recreation Commission Meets

The recreation commission, with all members present, met at the office of County Engineer, Charles Wagner and took up matters pertaining to the commission's activities.

The recent filling of the baseball diamond at the city park was reviewed and plans made to scalp the infield in the near future.

Plans for modernistic rest rooms were presented by Bill Willis, explained and discussed at some length, and given approval by the commission. It is a Jaycee project and will be a marked improvement to the city park facilities.

Other matters also were discussed at the session.

Tennessee Gas Asks Hike In Its Rates

WASHINGTON (AP) — The Tennessee Gas Transmission Co. of Houston, Tex., has submitted to the Power Commission arguments in support of a wholesale gas rate increase in 12 states.

The increase, amounting to $8,616,000 annually, applies to wholesale rates to 70 customers. It was requested by Tennessee Gas Nov 3, 1954 and has been in effect since Dec. 15. If the boost should be disapproved by the commission, refunds will be made for the period the higher rates have been in effect. Ohio is one of the states.

$90,000 Donated Udall Survivors

UDALL, Kan. (AP) — Private sources and organizations have contributed some $90,000 to aid survivors of Udall, the Kansas village wrecked last Wednesday by a tornado which caused heavy loss of life.

Joshua Logan, director of the movie "Picnic" being filmed at Hutchinson, Kan., gave $1,000.

Motorists who visited the stricken town over the weekend chipped in $6,600. The Red Cross has earmarked about one million dollars in disaster relief money for the tornado area including Udall and Blackwell, Okla.

Daylight saving time was first introduced by Germany in World War I and later adopted in England.

"Mary Haworth's Mail"

DEAR MARY HAWORTH: I've never discussed my problem with anyone and I've never heard of a similar case, so I don't know whether it is unique.

I come of a large, wonderful, happy family. I married a grand man and had a perfectly normal marriage for 10 years; then he died suddenly. After a few years I married again. My daughter and I both love this man very much, but after three years there are aspects of our marriage that puzzle me.

When we were first married (his first marriage) we bought a house. As he is an only child, his mother, a widow, came to live with us. I welcomed her and really felt that we could all be happy together.

Soon I learned that the house is in my husband's and his mother's name—just as if I weren't his wife. Also that his bank account and bonds are the same. I've spoken to him about this, saying it's not the money I care about, but I consider it an unusual arrangement that makes me feel like an outsider instead of a partner. He explains that his mother lent him money, so that he wouldn't need a bank mortgage—thus he thought it only fair to make these arrangements.

Inlaw Calls Her Hand

Mike's mother (I'll call her Mrs. X) is naturally disagreeable, I've decided after three years. I've tried all the ideas derived from your columns and from books, for getting along; but I don't think she will ever change. Once when I tried talking to her plainly she said "If you don't like it, why don't you get out?" And that is her attitude.

I am thinking of leaving. I have a small income and can work and easily take care of my daughter. Of course we shall be terribly lonesome without him, but I can't live here any longer and retain my self-respect. Is there any other answer?

S. P.

Mother a Real Menace

DEAR S. P.: Your problem isn't unique. It is just about as prevalent, in different forms, as mom-mothers, and there are quite a few of them, as clergymen, psychiatrists and other specialists in human relations can tell you.

Mom-mothers are those psychologically childish women — self-centered and emotionally possessive to the nth degree—who are jealously opposed to having their sons grow up and "leave" them for another woman: a wife or sweetheart.

If a mom's son gets far enough along the road of normal male experience to take a wife, mom compulsively rejects the bride—as if they were natural enemies, in a lifelong fight to the finish, or until mom butts her out of the picture, somehow or other.

The mom-mother does her utmost, by sentimental strategy, to keep her son attached to her leading strings. Just as Mrs. X has done, for example, in letting herself into Mike's home-buying deal, thus promoting an arrangement that makes her (and not you) his financial partner and prospective chief beneficiary.

Expert's Slant

A first-rate mother, fairminded a wife's place in her son's life. If he marries, she accepts the readjustments in her life with good sense and good courage, and educates husband and wife to count on themselves (and each other) and socially mature, doesn't hog primarily, to provide the building materials of mutual security.

If help is needed that she can provide, she either gives outright, with no strings attached, or she lends in a businesslike way, neither expecting nor requiring more than businesslike return in due time. She treats the pair as a unit, while matter-of-factly recognizing her separate status, comparatively, in the overall relationship. This Mrs. X won't do.

If your reading for guidance, have you encountered Dr. Edward A. Strecher's book "Their Mothers' Sons" (Lippincott)? The author, wisely sympathetic to all sides of the "mom"-triangle, comes to much the same conclusion as you—namely, that marriage under a "mom's thumb is incompatible with mature-type self - respect. Thus the forthright remedy is to get out.

If you go, for justified reasons, Mike may finally see the light and follow. If he doesn't, you will have double proof that he is helplessly, umbilically tied to his mother, hence incapable of making a meaningful marriage.

1955 Dance Revue Thursday Night

Pupils of the Nancy James School of Dancing in Washington C. H. and Wilmington are to present the school's annual dance revue at 8:15 P. M. Thursday in Boyd Auditorium at Wilmington College.

The theme of the revue this year is "Dreams" and the program is marked by originality.

Mrs. Richard Tescher, the former Miss Nancy James of Washington C. H., is well known here. She was assistant instructor with the Barbara Allen School of Dancing for five years, but for the last two years, she has been the proprietor and instructor of her own school.

Romulo Urges U. N. Charter Change

AKRON (AP)—Gen. Carlos P. Romulo says the United Nations charter must be tailored to fit the new shape of the atomic world.

The Philippine soldier - statesman and former president of the UN General Assembly spoke before 300 United World Federalists here.

Two months after the UN charter was signed, he said, "the atom bomb was set off in Hiroshima. It is logical that there must be a rceolution in thinking comparable to the atomic revolution."

Prof. Ray Kumar Coubey, 59, of Banaras University, India, says he has 15 separate M. A. degrees and plans to acquire at least one more.

A MOTION PICTURE STORY of one of the most spectacular chapters in the conquest of the wold west is booked for Sunday, Monday and Tuesday at the Fayette Theater here under the banner of "Chief Crazy Horse". The title came from the famous Sculx Indian warrior who defied the nation and wiped out Gen. Custer's command at the Little Big Horn. Leading roles are taken by Victure Mature, Susan Ball and John Lund.

American Civilians Losing Privileges

FRANKFURT (AP) — The U. S. Army today took away the cheap housing, cigarettes, gasoline and other logistic support it had been furnishing hundreds of American civilians in West Germany.

The action was the result of the return of sovereignty to West Germany. Americans employed by the Army and those living in Berlin, still under Allied occupation, were not affected.

Memorize 500 Verses of Bible

Four Youngsters To Get Free Camp

Four Fayette County students have qualified for a week, free of charge, at the Rural Bible Crusade summer camp, as result of memorizing 500 verses of Scripture, according to announcement by the regional office of the Rural Bible Crusade at Wheaton, Ill.

The youngsters who have qualified are Benny Allen, son of Mrs. Gladys Allen, Route 4, who is in the fifth grade; Linda Lou Huff, daughter of Mrs. Mary Huff, Jeffersonville, who is in the seventh grade at Bookwalter school; Evelyn Sue Griffith, daughter of Mrs. Gladys Griffith, Route 4, who is in the fifth grade and Donna Simmons, daughter of Mr. and Mrs. Charles Simmons of near Jeffersonville, pupil in the eighth grade of the Bookwalter school.

In addition to the free week at summer camp, the location of which is not given in the announcement, ten other awards will be made.

The four Fayette County pupils are among 20,000 who have learned 500 Bible verses through the Rural Bible Crusade's program. The Rural Bible Crusade is non-sectarian, operating in a dozen mid-western states.

Each year more than 100,000 school children enroll in the Rural Bible Crusade.

Rodgers Chapel Plans Big Event

Homecoming Services To Start On Sunday

Plans for Homecoming Week at Rodgers AME Chapel on North Main Street have just about been completed, except possibly for a few of the last minute details, under the guidance of the pastor, Rev. Charles D. Johnson.

Homecoming Week is to start next Sunday when Dr. V. C. Hodges of Cleveland, secretary of the American Bible Society, will be the guest minister for the morning service.

Rev. T. W. Brown of Circleville is to have charge of the afternoon services, which are to start at 3:30 P. M. The choir of the Circleville church is to come here for this service, too.

The evening service at 8 o'clock is to be featured by the Columbiana Singers in a program of sacred music.

Ministers from other churches are to participate in the evening services during Homecoming Week. They all are to start at 8 o'clock.

* * *

REV. J. D. WHITE of Jeffersonville is to conduct the service Monday night; Rev. Harold Wingo, accompanied by the choir of the Zion Baptist Church in Chillicothe, are to be here for the Tuesday service; Rev. Robert Gates of Middle Run Baptist Church at Xenia is to have charge of the Wednesday night service; Rev. William Jones is to come from Roxabel in Ross County for Thursday night and for the Friday night service, Rev. Frank Kurl and the choir of his church are to come here from Wilmington.

For the afternoon service of Sunday, June 12, Rev. H. H. Teague and the choir of the Hosack Baptist Church in Columbus are to carry on the service and that evening there is to be a talent program.

Ithough this event has been designated a Homecoming Week, the committee in charge has extended the observance beyond that time limit. There is to be a dinner some time before, or in conjunction with, the popularity contest scheduled for June 24. At this time, the king and queen will be crowned as the climaxing event of the Homecoming.

All meetings are to be open to the public, Rev. Johnson said.

SERVICE PINS ARE AWARDED to four employees of the Dayton Power and Light Co. branch here. From left to right are W. E. Smith, awarded a 20-year pin; Edward Sword, 10-year pin; Miss Frances White, 20-year pin; A. E. Weatherly, manager of the office here; Thurman Coulter, 20-year pin; Warren Schleich, superintendant and George Finley superintendant. David Moore, awarded a 10-year pin, is not shown.

44 Students Will Graduate June 6

Forty-four seniors will receive bachelor degrees at Wilmington College's 81st annual commencement exercise Monday at 10 A. M. in Boyd Auditorium. This marks the smallest graduating class since 1945, due to the policy of excluding 1955 summer school graduates.

One honorary degree, Doctor of Laws, will be conferred on Raymond Cadwallader, principal of Western Hills high school, Cincinnati. Cadwallader, a Wilmington graduate, was chosen for his outstanding contributions to public school education. William H. Zimmer, vice president of the Cincinnati Gas and Elecgric Co., will give the commencement address.

The baccalaureate sermon will be delivered Sunday, June 5, at 3 P. M., by Dr. Henry J. Cadbury, chairman of the American Friends Service Committee.

Thirty-two of the graduates are from Ohio, including three from Wilmington, and one from Midland, in Clinton county. Nine are from other states, and three from foreign countries.

Restaurant Operators Are Urged To Accept More Responsibility

"Restaurant operators should accept greater responsibility for the sanitary condition of their establishments", Dr. N. A. Dyer, health commissioner of the Fayette County Health Department said today, in connection with the restaurant inspection and enforcement of the foodhandling regulations of Ohio's sanitary code.

"It is the duty of the manager of each public eating place to assure the public of clean, wholesome food which is stored, handled and served in such a manner as to prevent contamination that might lead to food poisoning or other disease", Dr. Dyer declared.

Although fortunately food poisoning outbreaks have been rare in Fayette County, Dr. Dyer said the danger is ever present and can be avoided only by constant vigilance and strictest observance of safe foodhandling methods. Figures collected by the U. S. Public Health Service show that in 1950, the last year for which tabulations have been completed, there were 347 disease outbreaks in the United States caused by food, with 10,174 persons involved and 5 deaths.

Therefore, Dr. Dyer urged managers to be their own inspectors and check every point of their operations.

"Make a complete inspection of every part of the restaurant at least twice a day", he advised. "Note any unclean conditions and order their correction. Be constantly alert for any unsanitary practices on the part of your employes. Check especially the sanitization of utensils. Except where sanitary paper service is used, insist on thorough sanitization of all utensils."

Dr. Dyer expressed his satisfaction with the cooperation the food service program has been receiving from the majority of operators and declared that his department was prepared to give all possible assistance to solve the sanitation problems of individual restaurants.

City Co-operating In New Sewer Work

City Manager James F. Parkinson said Wednesday that the city is cooperating in the work of extending a sanitary sewer on Campbell Street to Pearl Street and Pearl Street to the railroad.

All of the engineering work is being done by Parkinson, and work of laying the sewers will be done by the street crew.

The cost to abutting property owners will be about half of the normal cost for new sewers, Parkinson said, and, this expense consists of paying for cutting the trench, the sewer pipe and refilling the trench.

In the last two years some 1,200 feet of sewer has been laid in this matter, at comparatively low cost to the abutting property owners.

Chillicothe Firm Low On Paving Bid

HUNTINGTON, W. Va. (AP)—The W. H. Ringwald and Sons Co. of Chillicothe was low among three bidders on a major paving contract at the Lockbourne, Ohio, Air Force Base.

The bid of $796,678.20 compared with the U. S. Engineers estimated $748,443

Trustees Here Look Forward To Convention

3-Day Program Is Arranged For Gathering In Dayton

Township trustees and clerks of Fayette County today were looking forward to June 16-18 when the 28th annual summer convention of the state Association of Township Trustees and Clerks is to be held in Dayton.

Not all of them will be able to take it in, because this is the time of year when farmers are busy with corn plowing and hay making, but that doesn't keep them from hoping and wanting to spend at least some time at the convention.

Virgil Garinger, president of the Fayette County Association and a trustee in Perry Township, said it was impossible to tell in advance how many would go from here because the weather and the progress they make during the next couple of weeks will be the determining factors.

For those who arrive in the convention city early, the Montgomery County Association is to provide entertainment for Wednesday evening, the convention notice sent to Garinger said. However, it did not elaborate or intimate what the entertainment would be.

The business sessions have been scheduled for Thursday, Friday and Saturday mornings at the Dayton Biltmore Hotel.

* * *

ON THURSDAY afternoon, the group is to be taken on a trip through the vast National Cash Register Co. plant and on Friday afternoon there is to be a conducted trip through the fabulous Wright-Patterson Air Force Base just north of Dayton.

The big banquet is to be held Thursday evening.

The notice card suggested that hotel reservations be made as soon as possible and recommended three, the Biltmore, the Miami and the Van Cleve hotels.

The Fayette County Association holds four meetings a year; the last one was on April 1, but not enough was known about the convention time, place of program for discussion, Garinger said.

He expressed the hope that he could take in some of the sessions and predicted that a number of the township trustees and clerks here would avail themselves of the opportunity to see the NCR plant and the inside of the Wright-Patterson Air Force Base because such a chance was not like to come soon again.

Arbitration Move Shunned By Union

CLEVELAND (AP)—The Brotherhood of Locomotive Firemen & Enginemen, turning down the National Railway Mediation Board's proposal for arbitration, says it will take a strike vote.

The brotherhood is seeking 28-cent hourly pay boosts for firemen working a 40-hour week on the nation's major railroads. Present hourly rates were not available.

Brotherhood President H. E. Gilbert said his union could not accept the proposal because the railroads "have taken an adamant position" and "failed to make any offer desgined to dispose of the controversy."

Joe Must Go Club Upheld By Court

MADISON, Wis. (AP)—The Wisconsin Supreme Court has ruled that the Joe Must Go Club did not violate the state Corrupt Practices Act when it sought last year to recall Sen. McCarthy (R-Wis.)

The high court reversed the decision of Circuit Judge Bruce Bellfuss of Neillsville who fined the club $200 on each of 21 counts of violating state election laws.

Justice Grover L. Broadfoot, who wrote the unanimous decision, directed that the case be remanded to circuit court and that all the counts be dismissed.

The club was started by Leroy Gore, former Sauk City editor.

When Henry VIII traveled, he carried his own lock with him and had it screwed to his bedroom door.

Sgt.Earl Binegar

Sgt. 1-c Earl Binegar, 23, who is about to start his sixth year in the Air Force, has just comleted his course in the Non-Commissioned Officers Academy at Anniston Arsenal Depot at Anniston, Ala. The son of Mr. and Mrs. Ernest Binegar, 436 South Fayette Street, he plans a military career, his mother said. A paratrooper with an airbourne outfit, Sgt. Binegar is now stationed at Camp Campbell, Ky. He went to Washington C. H. High School, but withdrew to enter the service before he was graduated.

Class of 1945 Plans Reunion

Affair Next Sunday At Fairground Here

Members of the 1945 graduating class of Washington C. H. High School today were planning to celebrate the 10th anniversary of their commencement with a class reunion at the Fairground here next Sunday.

The reunion program (if any) is being built around a basket lunch, a spokesman for the promoters said. He added "and we'll have it rain or shine;" presumably, the committee is counting on taking refuge in the grandstand or possibly making arrangements with the Fair directors for use of one of the buildings there suitable for such an affair.

But, if the weather is fair, the reunion will be held under the giant forest trees that dot the Fairground. There are benches within reach and the ground has been mowed and cleaned in the early stages of preparations for the Fair.

Postcards have been sent to members of the class and many of the teacners, telling them of the reunion plans.

It was ponited out that while many of the class are no longer living in this immediate community, few of them have not kept in touch with one or more classmates; it usually takes more than 10 years to wreck the mailing list of a class, he added.

Members of the class who have been taking an active part in planning the reunion and ferreting out the addresses of their classmates are Mrs. Hugh Rea, Mrs. Sam Wilson, Mrs. Dwight Martin, Mrs. Robert Mace, Mrs. Wayne Bower, Mrs. Richard Arnott, Miss Patricia Hillery, Malcolm Bloomer, Hal Summers, Richard Babb and Barton Montgomery.

4-H Club Activities

FEATURED 4-H'ERS

"Health" was the topic of a discussion at the last meeting of the Featured 4-H'ers. The youngsters discussed how to stay healthy and how to be neat-appearing.

Held at the home of the club advisor, Mrs. Warner Penrod, the meeting was opened by the president, Lana Huffman. Bonnie Wolfe gave the pledge to the flag; Oleta Hilliard read the secretary's report and Linda Cottrill read the treasurer's report.

Sharon Penrod led the group singing. Sue Henry was elected health chairman and Karen Brightman, safety chairman.

Refreshments were served by Karen Shiltz.

SCISSORS SISTERS

All the members of the Scissors Sisters gave demonstrations during the last meeting of the club, held at the Farm Bureau auditorium.

Kay Rhoades and Karen Stephenson showed how to lay a pattern and cut a skirt. Leoria Barnes demonstrated the use of tailor tacks in placing and cutting a dress and Mildred Ross cut out a dress. Carol June Wilson fitted a pattern and placed the material; Patricia Parker pinned down a pattern.

Nancy Stephenson helped cut an apron and Nancy Fryer cut and basted an apron. Carol King showed work on her needle book and Barbara Mathews basted a dress. Brenda Stricker and Carolyn and Donna Dill worked on tea towels, Joyce Lutz pinned a pattern on material and Betsy Vollette worked on a tea towel.

Kay, the president, opened the meeting and Patricia and Mildred gave the secretary's and treasurer's reports.

Mrs. Gerald Stephenson, the assistant advisor, announced that the farewell supper for Mr. and Mrs. Albert Cobb would be held at the Fairgrounds June 4. All 4-H members and their families are invited.

Donna and Betsy served refreshments. Hostesses at the next meeting will be Karen and Leoria.

The advisor of the club is Miss Shirley Cockerill. Mrs. Stephenson and Mrs. Frank Dill are assistant advisors.

Chicago Candidates Outline Expenses

CHICAGO (AP) — The two main candidates for the Chicago mayoralty in April have estimated their campaign expenses and the total was more than $850,000.

Mayor Richard J. Daley said his campaign expenses were between $450,000 and $500,000 for the primary and mayoralty elections. He said a statement that more than $1 million was spent on his campaign was incorrect.

The statement was made by Robert E. Merriam, defeated Republican candidate, who said $409,710 was spent in his campaign.

WHY BLUE CROSS IS BEST BUY

You receive Blue Cross benefits in hospital services — not some cash to apply towards paying your bill. And hospital services come high these days . . . usually more than any allowable cash payments.

Blue Cross provides coverage for 16 costly services including care in a semi-private room. More than 46 million persons in the United States—or every fourth person— are subscribers. Blue Cross is the hospitals' own plan and you get the best service any hospital can furnish. It is the most LIBERAL plan available.

Persons under 65 years of age who are self-employed or work where there are fewer than five employes may enroll.

Those working where there are five or more employes are eligible for membership through a payroll deduction group.

For full information on forming a payroll deduction group visit enrollment headquarters.

Violence Is Good Theater, Actor Cornel Wilde Claims

HOLLYWOOD (AP) — Violence in Hollywood films has been hit from all sides. Here's one man who defends it.

He's Cornel Wilde, actor, producer and now a director. He starred in and helped produce "The Big Combo," one of the films which brought forth a wave of protest about too rugged action in movies. Recently he directed himself in "Storm Fear." You can gather from the title that it is not a gentle subject.

"You can't get away from violence in drama," he said. 'When you have two people in conflict, it is bound to result in violence, either in words or action. If you do not have conflict, you do not have drama.

"There is nothing new about violence in the theater. 'Oedipus Rex' is certainly a violent play, and it has withstood the test of centuries.

"Shakespeare is replete with violence. Look at 'Hamlet.' The stage is littered with corpses at the end of the play.

When Orson Selles did 'King Lear' on TV, they showed an eye gouging. I was shocked by it, but not repelled. It was good theater."

Wilde admitted that the decriers of Hollywood had a case—"when violence is presented for violence's sake. If a brutal scene is shown for no reason except to shock, then it is bad. I think 'The Wild One' was an example of meaningless violence."

"The Big Combo" was criticized in England and elsewhere because of a scene in which gangster Richard Conte tortured. Wilde Conte put a hearing aid in the hero's ear and played a radio loudly. Wilde defended the scene as being subtler and less brutal than the senseless beatings in many films.

The answer to the problem is you, the movie goer. If you get a thrill from brutality on the screen, it will continue. If you think the studioes have gone overboard on violence, they will tone it down.

The ruler of Hollywood is still the ticket buyer.

Slav Ship Sinks

LONDON (AP)—A Yugoslav navy ship sank in a storm off the port of Senj in the Adriatii yesterday and 26 crewmen drowned.

Grain Storage Bin Loss Uncovered

DES MOINES (AP) — The Des Moines Register said today that a multi-million dollar loss in grain bin construction has been uncovered in the Department of Agriculture.

The Register says that one House committee has completed a secret report "on the laxity in the inspection of the bins in which the huge surpluses of corn, wheat and other grains are stored."

The Register also said a Senate group has evidence that 8,960 grain bins fabricated by one firm and sold to the federal government last year have been proved defective. The 8,960 bins were purchased and erected throughout the Mid west.

Elevator Kills Boy

LUFKIN, Tex. (AP)—Billy Solly, 15, was killed Tuesday when his head was crushed against a wall by an elevator in a department store. Store officials said Solly, a receiving clerk, apparently had pulled himself up on the elevators back wall and was looking down the shaft as the elevator went up.

It is possible to lose consciousness in a severe fit of coughing.

Ohio Farm Group OKs Flexible Props

WASHINGTON (AP)—Most people responding to a poll conducted by Rep. Frank T. Bow (R-Ohio) favor the Eisenhower administration's flexible farm program, Bow said today.

Bow sent out 131,000 questionnaires to every home in his 16th Ohio District — Stark, Tuscarawas and Wayne counties.

Of the 23,091 who replied, Bow reported, 61 per cent said they approved flexible price supports.

Said Bow: "This kind of response in an area where there has been considerable decline in farm income and where some factions are doing their best to create political dissatisfaction is encouraging."

June May Set Record High In Retail Sales

Businessmen Counting On Consumers Shelling Out In Large Amounts

By SAM DAWSON

NEW YORK (AP) — Businessmen are counting on consumers making June a month of roses. Retail sales may well set a new high for the month Some expect sales to total 15½ billion dollars.

Industrial leaders at the same time are well aware that the month will have some thorns. Labor-management bargaining will come to a head in both the auto and steel industries. Production in both is expected to reach its peak and could start tapering off by the end of the month, even if labor peace is maintained.

But what is confidently expected to be the nations greatest vacation season will get under way this month.

People are in a spending mood. Merchants expect summer clothing to sell well this month Gasoline dealers expect to pump more fuel than ever into the nations cars. Grocers report consumers buying freely of better quality food.

The home building boom is rolling along with so much momentum that the construction industry expects this June to be one of its best.

Purchasing agents report that new orders are on the upgrade, insuring good industrial activity this month.

Industrial production in general, back now to its 1953 peaks, is expected to hold high in June before the usual summer vacation slump in July and August.

Unemployment has been declining slowly.

In the auto industry the emphasis will shift in June from the assembly lines to the dealers display rooms.

Dealers, with inventories of new cars at a record high, look for June to be a record sales month.

The steel industry enters June with production at a peak.

If a letdown in business is ahead the general belief is that June isn't the month for it to start.

Schools Re-Opened

ROME (AP) — Millions of Italian students flocked back to school today after an unexpected vacation due to a nationwide teachers' strike. The strikers, about 60,000 teachers in 3,800 schools called off the four-day walkout in response to parents' pleas.

Movie Violence Is Target Of No. 1 Hollywood Censor

HOLLYWOOD (AP)—The man who is trying to put a restraining hand on movie violence is square-built, English-born Geoffrey Shurlock.

Last year, the 60-year-old Shurlock succeeded Joseph Breen as Hollywoods production code administrator. He and his staff survey most scripts and all finished pictures and advise studios on censorship matters.

If films conform to the production code, they get a seal certifying them to be shown in American theaters. Rarely do producers try to sell movies without a seal. "The Moon Is Blue" was one of the few exceptions.

As Hollywood top censor, Shurlock tries to avoid the limelight. But because movie violence has become such a big issue, he granted an interview on the subject.

"We saw this coming last November," he said. "There was a notable increase in the amount of violence in scripts being presented. Those are the pictures that are in release now.

"We cautioned the producers that too much violence would bring a reaction from the public. I think we are making some headway in convincing them that violence should be toned down. But the results will not be evident in the theaters for another six months.

"One of the reasons I foresaw this trend toward violence was the Academy Awards. The top winners two years in a row were two extremely violent films — 'From Here to Eternity' and 'On the Waterfront.' It was inevitable that others would follow."

How does the code authority gauge the public's reaction to film content?

"The audience is our partner in this business," said Shurlock, veteran of 23 years with the code. "We watch the reaction carefully, through the Legion of Decency, the 13 women's groups that review pictures, the Protestant Film Council, plus the important trade and newspaper reviewers."

How does the code govern violence?

"We have no hard and fast rules. Rules would kill this industry. We can only do what Joe Breen suggested: 'Let's make pictures that are reasonably acceptable morally to reasonable people.'"

Health Service Due To Issue Polio Report

NEW YORK (AP)—Most or all your questions about the polio vaccine could be answered in an official report soon.

The U.S. Public Health Service is preparing this report, and it may be ready this weekend, Surgeon General Leonard Scheele says.

He said it will tell why release of vaccine was held up, and why some changes were made in testing regulations. It will also tell what "new knowledge" was learned during scientific discussions and studies recently.

President Eisenhower says scientific work during the delay period in vaccinations produced "new things about the way viruses behave in large-scale manufacture" and brought "new safeguards."

Little of this has been spelled out, but Dr. Scheele said the full report will do so.

That could go a long way toward answering the primary question in parents' minds—should they have their children vaccinated? Equally important is their question: Does vaccination reduce the risk of getting polio, and how much?

Roberts Keeps Phillies Out Of NL Cellar

Robin Responsible For 8 of 19 Wins Chalked By Team

By THE ASSOCIATED PRESS

So long as Robin Roberts wins 20 or more games a season, the Philadelphia Phillies will stay out of the National League cellar. Robin has won 20 or more the past five years and 1955 will be no exception if he continues at his present pace.

The Phillies have won just 19 games as they ride along in seventh place, and Roberts has won eight of them, including a neat six-hit 3-1 decision over the Chicago Cubs Wednesday night.

The Michigan State alumnus had only a 3-3 record on May 7, but in less than a month, he has won five games and shows a fine 2.30 earned run average.

The only teams he hasn't beaten are St. Louis and Cincinnati.

The Phils themselves seem to be snapping out of the doldrums. They've won 9 of their last 11 games, and, although, they are just above the Pittsburgh Pirates in the standings, they are only four games behind the third place New York Giants.

After the Phils scored two runs in the fourth, it was merely a matter of Roberts protecting the lead, which he did with no particular trouble. Ernie Banks hit a home run for the Cubs in the fifth for their only run.

Elsewhere in the National League, the Brooklyn Dodgers trimmed the Milwaukee Braves, 11-8; the Redlegs whipped the New York Giants 5-2, and the Cardinals slapped down the Pirates, 6-2.

In the American League, the Cleveland Indians shut out the Baltimore Orioles, 5-0; the New York Yankees won a doubleheader from the Kansas City A's, 3-1 and 6-1; the Chicago White Sox edged the Boston Red Sox, 4-3, and the Detroit Tigers blanked the Washington Senators, 9-0.

Duke Snider was the big gun in the Brooklyn victory, hitting three home runs and narrowly missing No. 4. His fourth try hit the right field screen and he had to settle for a double. Once before, Snider hit three home runs and just missed a fourth. He now has 15 home runs for the season.

Neither starter—Carl Erskine of the Brooks nor Gene Conley of the Braves—was around at the finish what with all the bombarding.

The Redlegs got one of their rare well pitched games and aided by home runs by Ted Kluszewski and Roy McMillen, had no trouble with the Giants. Joe Nuxhall held Leo Durocher's men to five hits. Nuxhall had a four-hit shutout until the ninth when Willie Mays hit a homer with Don Mueller on base.

Lois Arroyo tossed his sixth victory against no defeats for the Cards. Arroyo was backed by a 12-hit attack. Ken Boyer and Bill Virdon each collected three hits for the winners.

The Orioles didn't have a chance against Early Wynn. The Cleveland ace set them down with four hits. The Tribe is 3½ games behind the Yanks. Cleveland scored three times in the first inning and from there on it was a cakewalk for Wyn, although Al Smith hit an insurance home run with one on in the second.

Johnny Kucks stopped the A's in the first game for the Yanks, although he needed help from Tom Morgan in the ninth, and Whitey Ford went all the way in the second game. Neither team got a hit until the sixth ining of the opener, Irv Noren singled home Andy Carey to break it up in the ninth. Carey had a three-run homer in the nightcap.

Ted Williams went hitless in four trips to the plate in the Boston loss to Chicago. Sherman Lollar produced the big blow for the Pale Hose, a three-run homer. But they still needed a single by Chico Carasquel in the eighth to score the wining run.

Lefty Billy Hoeft tossed his second straight shutout for the crippled Tigers. He held the Senators to only two hits while his mates collected 10 hits. Jack Phillips, substituting for the sore-kneed Ferris Fain at first base got three.

Ohio All-Star Baseball '9' Picked For 3-Tilt Series

COLUMBUS, Ohio (AP)—Sixty high school baseball players, 10 from each district, were named today to participate in the first annual east-west all-star three-game series in Columbus June 30 and July 1.

The series is being sponsored by the Ohio High School Baseball Coaches Assn., and the players and six mentors will be housed and fed at the Ohio State Stadium Club rooms.

Players from the northwest, central and southwest districts will make up the western squad, with the eastern all-stars coming from the northeast, southeast and eastern sectors. The teams report here June 26, and have one game scheduled the night of June 30 and two the night of July 1, in the International League stadium of the Columbus Jets.

The selections:

EASTERN ALL-STARS

Oklahoma A&M Win String Snaps

OKLAHOMA CITY (AP)—Oklahoma, beaten four straight times during the regular season by Oklahoma A&M, upset the previously unbeaten Aggies yesterday 3-0 to take a one game lead in their best of three series for a berth in the NCAA baseball tournament in Omaha June 10-14.

Tony Risinger bested Ken Kinnamon in the mound duel. Kinnamon was the winner in all four previous victories over the Sooners. Until yesterday, the Cowboys were unbeaten in 22 games.

Third baseman Chuck Harmon of the Redlegs played on the Toledo University basketball team that went to the finals of the NIT tournament at Madison Square Garden in 1943.

Fishing should pick up in Little Darby Creek, Marysville, Ohio. A truck hauling live fish overturned in the creek.

Rookie Bob Speake of the Cubs played for a service team in Japan. His team won 99 games, lost eight and tied one.

Golfing Gals Out in Force

Mrs. Wayne Shobe Sets Pace With 47

Cool but sunny weather brought the feminine golfing contingent flocking to the Country Club here for Wednesday's Ladies Day when 28 to them teed off for the morning's sport on the fairways, followed by luncheon in the club house at noon and cards for many in the afternoon.

Mrs. Wayne Shobe set the pace with a 47, her best of the season. Mrs. Ralph Bray came through with a 52, of which only 14 were putts. Mrs. Dwight Coffman was third with a 58.

Mrs. Marvin Roszmann took the honors for the low net score (Gross minus handicap) with 59 gross, minus handicap of 22 for a net of 37.

Mrs. Elmer Reed with 67 - 28 for 39 and Mrs. Bill Junk with 61 - 22 for 39 were tied for second place.

Mrs. Shobe with only 12 strokes on the green took the putting honors, Mrs. Bray with 14 was second and Mrs. Paul Pennington with 15 was third.

Blind Bogey winners were Mrs. Don Lange, Mrs. James Martin and Mrs. Bob Link.

Because the dentists of south-central Ohio are to gather at the Country Club here for their district meeting next Wednesday, the Ladies Day will be moved back to Thursday. The hostesses for it will be Mrs. Reed and Mrs. Everett Waddell.

Scores for Wednesday's golfing were: Mrs. Howard Osborne 79 - 36 - 43; Mrs. Scott Harner 80 - 36 - 44; Mrs. Bill McLean 62 - 21 - 41; Mrs. Wayne Shobe 47 - 8 - 39; Mrs. Ralph Bray 52 - 11 - 41; Mrs. Ed Vollette 70 - 26 - 44; Mrs. Dwight Coffman 58 - 18 - 40; Mrs. Paul Pennington 66 - 25 - 41; Mrs. Elmer Reed 67 - 28 -39; Mrs. J. O. Garringer 57 16 - 41; Mrs. Dick Willis 62 - 22 - 40; Miss Kathleen Davis 65 - 24 - 41; Mrs. Ben Wright 83 - 42 - 41; Mrs. Roger Littleton 62 - 20 - 42; Mrs. Robert Hagerty 65 - 24 - 41; Mrs. William Junk 61 - 22 - 39; Mrs. Robert Link 66 - 26 - 40; Mrs. Robert Green 72 - 30 - 42; Mrs. Marvin Roszmann 59 - 22 - 37; Mrs. Robert Lisk 83 - 42 - 41; Mrs. Don Lange 69 - 29 - 40; Mrs. C. Snider Almost Matches Record

BROOKLYN (AP)—Two yards of chicken wire was all that prevented Duke Snider from joining the select group of seven sluggers who have hit four home runs in one game.

The center fielder of the Brooklyn Dodgers had to settle for three homers and a double as the Dodgers defeated Milwaukee Braves 11-8 last night.

Snider walloped three homers one each off southpaw Roberto Vargas and righthanders Gene Conley and Ernie Johnson. Against lefthander Chet Nichols in the eighth inning, Duke lined a pitch to the screen in right, just six feet short of his fourth homer.

New Dean & Barry house paint with Poly-Lin looks smoother, looks glossier, looks better longer! And this means the most beautiful paint job you've ever seen, the most durable paint job your dollars can buy.

Here's why: *Poly-Lin* is the 100% pure polymerized linseed oil that gives Dean & Barry house paint extra smoothness, extra gloss, extra strength and toughness all the way through. No thinned-out places to prematurely weather and wear. No unsightly brush marks to spoil appearance. Dust and dirt wash off easily from the smooth, higher gloss finish. Paint jobs look better, last much longer to save important dollars for you.

No extra cost—meaning you benefit, too, because you pay nothing extra for the superior beauty and durability the new *Poly-Lin* blend gives. So why pay more—why take less? See us today, or have your painter-decorator come in.

Junior McNutt (left) and Floyd Chaney (right) of 231 Oakland Avenue and their families not only have had some tastey catfish steak but also have some on ice for another treat. The big slabs of fish were sliced from a 20-pound 35-inch long shovelhead catfish they took off of their trot line they set in Paint Creek about 3 miles above Bainbridge. A chub minnow was used for bait. There were 30 hooks on the trot line, but only the big one was on the line when they "ran" it with their boat at 6 A. M. the second night they had spent on the creek bank. McNutt said: "It took both of us to pull her in . . we worked a small rope through her gill and out her mouth." Incidentally, the big shovelhead also provided another delicacy --catfish roe.

Idle Montreal Tops IL Flag Race

MONTREAL (AP)—The big question around the International League today is "who do you like for first plate?"

Montreal jumped into the top spot last night without even playing. The Royals were rained out with the Columbus Jets and the Havana Sugar Kings dropped the defending champion Toronto Maple Leafs to second place by blanking them 8-0.

In the other games, the Richmond Virginians extended their winning streak to four games as they downed the Rochester Red Wings 4-1 and the Syracuse Chiefs rocked the Buffalo Bisons 5-1.

Joe Nuxhall May Be Top Redleg Hurler

NEW YORK (AP) — It begins to look more and more as if Joe Nuxhall, who pitched in his first major league game when he was 15 years old, may provide at least part of the solution to the Cincinnati Redlegs' pitching problems.

The search for consistent winning hurlers has been going on for much longer than Redleg bosses care to recall but Nuxhall, now 26, showed more signs yesterday that he may be one of the fellows they've been looking for.

Joe limited the New York Giants to five hits as the Reds took a 5-2 decision yesterday for their first victory over the world champions this season. And he had a shutout until the ninth inning when a walk to Don Mueller and Willie Mays' home run gave the Giants their two runs.

It was Nuxhall's fifth triumph as against three defeats and it was his fourth complete pitching assignment. He has pitched four of the seven complete games turned in by all of the Redleg hurlers.

Nuxhall first came to the Reds from his home town of Hamilton in 1944 and pitched two-thirds of an inning against the St. Louis Cardinals when he was 15.

Then followed a long tenure in the minors as he sought to curb wildness. He came back to the Reds in 1952 and had a 1-4 record. The following year he was 9-11 and last year he topped the Redleg pitchers with a 12-5 mark.

Babe Ruth Era Ended Just 20 Years Ago

NEW YORK (AP)—Twenty years ago today an era ended. Babe Ruth hung up his spikes for good.

He had played his last game May 30 against the Philadelphia Phillies. He went to bat only once and did notning, so he retired to the clubhouse. That was the last time the Babe's name appeared in a major league box score.

He was with the Boston Braves at the time as vice-president, asplayer.

His sight was failing and he was hitting only .181 when the end came. It came slowly, though.

It wasn't until three days later, June 2, that Ruth officially ended his baseball career and he was beaten to the punch.

Officially, he quit. But he admitted later that he was fired by Judge Emil Fuchs, president of the Braves.

Standing in the clubhouse, he told a boy to ask Fuchs to come see him. He told the boy to inform Fuchs he was quitting. He had gone as far as he could.

A few minutes later, some newsmen trooped into the clubhouse and Babe asked them what was up. They said they were sorry and he asked them why.

They told him he had been fired.

"So I got fired before I could quit," he said later.

International Golf Roster Complete

WASHINGTON (AP) — The field was completed today for the $150,000 international golf championships with the receipt of entries from abroad.

For the four-day tournament starting June 9 at Columbia Country Club in suburban Chevy Chase, Md., Denmark and Sweden entered as a team representing Scandinavia. Twenty-four other nations have two-man teams.

Cadillac

Has Its Own Vocabulary!

Over the years there has come into being what amounts virtually to a special Cadillac vocabulary.

Certain words and phrases have so long and so often been used in association with Cadillac that they almost automatically call the car to mind.

When the talk is of motor cars, who can hear the word "prestige" without thinking of Cadillac?

It is likewise true of "distinction" . . . of "luxury" . . . of "pride of ownership" . . . of "satisfaction" . . . of "comfort" . . . of "long life and dependability" . . . of "beauty" . . . of "impressiveness" . . . of "value"—and of dozens of other words used to denote superiority.

In a sense, these are Cadillac words—and they actually sound strange when employed in any other connection. Even when used in the promotion of another automobile, they still suggest the "car of cars".

Naturally, words like these can become inseparable only from a product which deserves them. In the case of Cadillac, it has taken half a century of the strictest adherence to the highest automotive standards to win this public approval.

Eternal vigilance is the price of this reputation.

* * *

Most people, of course, realize that these wonderful words apply to Cadillac. But too many have not yet personally found out why.

If you are among these—come in and see us today. We will give you the keys to a new 1955 Cadillac—and you'll know in a single hour why Cadillac has its own vocabulary.

You'll know, from personal experience, that when you speak of "prestige" and "distinction" and "luxury" and "pride of possession" and "value"—you are speaking of the Standard of the World.

We have the keys—and the car—and a real welcome waiting for you.

Time to Feed Delphiniums

By DEAN HALLIDAY

Distributed by Central Press Association

JUNE is delphinium month and if you have not already fed your plants, do it now. The large flowered types require a heavy annual meal. The small-spiked plants eat less. If they are overfed they are apt to grow "leggy" and then topple over in a storm.

All delphiniums are hearty eaters. Therefore, the accompanying Garden-Graph shows an easy method of feeding established plants. Sprinkle a ring of commercial fertilizer (4-12-4) around each plant, as illustrated. Be sure to keep the fertilizer away from the crown. Work the feeding into the soil and then water it down.

A slow acting fertilizer is safer than one that acts quickly. Many growers recommend using one part muriate of potash to three parts of bonemeal, thoroughly mixed.

Another recommended method of feeding delphiniums is shown in the Garden-Graph. However, it entails a little more work. Punch one or two holes 12 to 18 inches deep and about two inches in diameter near each plant. Use a crowbar to punch the holes. Fill them with plant food.

If you would like exhibition blooms feed the plants with liquid manure at weekly intervals. This should be started when the flower spikes begin to form.

Because of their height, delphiniums should be staked. Place the stakes at planting time. This will avoid later injury to the roots.

Don't give delphiniums deep cultivation during the summer. The roots are very near the surface.

New Oil, Gas Area In Ohio Claimed

WASHINGTON (AP)—The Interior Department says gas and oil have been found in five east Ohio counties, in an area spanning 880 square miles.

Douglas McKay, secretary of the interior, said yesterday a survey of the Clinton Sands section indicated fuel possibilities in the area.

The Clinton Sands tract covers central and western Stark County, part of eastern Holmes County, Northern Tuscarawas County, eastern Wayne County and part of Southern Summit County.

Murder Trial Is Delayed Again

McCONNELSVILLE (AP)—Another postponement, until next Monday, has been announced in the first degree murder trial of Mrs. Frances Sloan.

The trial of Mrs. Sloan, 28, accused of slaying her 16-year-old nephew, Kenneth Strohl, recessed last Friday until Tuesday. Then illness of Common Pleas Judge Carlos Reicker, suffering from a virus infection, caused postponement until Thursday of this week. The postponement until Monday then was announced because of Judge Reicker's condition.

Adlai Urging More Federal Health Activity

Medical School Aid, Reasearch Said Big Needs In Nation Now

NEW YORK (AP) — Adlai E. Stevenson said today the federal government should help to subsidize worthy private health insurance programs, step up its aid to medical research and provide for assistance to medical schools.

Stevenson, former governor of Illinois and 1952 Democratic presidential candidate, was a speaker for the formal dedication of the $10 million Medical Science Building of the New York University-Bellevue Medical Center.

Stevenson cited what he called "the developing public attitude" that "methods must be worked out for making medical service better available to all who need it, and this without crippling cost to anyone."

In pleading for "an acceleration" of the medical research program, he said:

"It seems a little strange that the Department of Agriculture will spend this year for research on plant and animal diseases ten million dollars more than the Public Health Service is spending for research on cancer, arthritis, mental, illness, neurological and heart disease combined. This just doesn't make sense."

• • •

"THE MOST promising approach to the problem of distribution of medical service," he said, "lies in the development of voluntary, private, prepayment health insurance programs.

"It is an important element in this prepayment insurance development that it represents a private, nongovernmental answer to a problem requiring group action.

"Certain barriers to its development must be broken down. In half the states there are restrictive laws, passed in haste, which prevent responsible private groups of doctors, and patients from working out the effective prepayment plans they consider best.

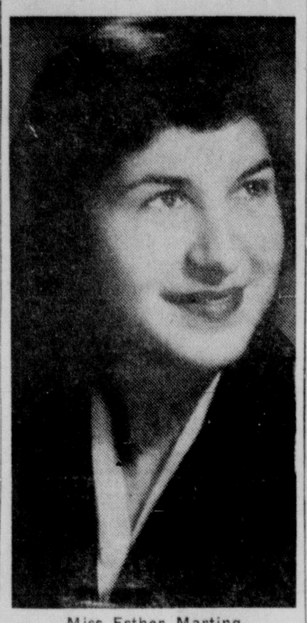

"And it is recognized, fortunately by the leaders of both political parties, that some degree of government assistance in developing this new program is necessary."

Such assistance, Stevenson said, should be in the form of "long-term, low-interest-rate loans to new prepayment groups and to subsidize part of the cost of comprehensive service to groups including some whose financial means are limited but whose medical needs are no less great."

"And it is imperative," he said, "that discussion for improved distribution of medical service not be frustrated by the familiar shouts of socialism that bedevil all forward steps in our country."

Urging federal aid to medical schools, Stevenson said:

"The expressed concern was about federal domination. But research in these schools has been subsidized by many millions of dollars of federal grants without a hint or whisper of domination."

Miss Esther Marting

Miss Esther Marting, daughter of Mr. and Mrs. Sam Marting of the CCC Highway, received her Associate in Arts degree from Stephens College at Columbia, Mo., at Tuesday's commencement and returned home Wednesday with her parents. She is to leave later this month for Poughkeepsie, N. Y., where she will teach in the Vassar College nursery school during July. She plans to return here and spend August with her parents before going to Tallahasee, Fla., for the fall term in Florida State College.

"The basic Chinese food, rice." This was varied with side dishes "from seaweed to birds nests."

Their recreation, after they came out of solitary confinement, included two hours exercise daily and writing letters home, none of which got through until after the geneva conference in April 1954.

The men all agreed conditions "improved tremendously" after the Geneva conference. They spoke little about conditions before the conference.

The men were shot down between September 1952 and January 1953. They spent most of their imprisonment in Mukden, Manchuria. They were moved to Peiping April 8 and faced trial on four hours notice May 14.

Cameron, replying to a question, said he thought United Nations Secretary General Dag Hammarskjold "had very much to do with" getting them released. He said "it will be one of the big moments of our lives" when they get to meet Hammarskjold. "I think he's doing a wonderful job."

Board Enlarged For Junior Fair

3 Girls and Boy Named To Seats

Four new offices were created and three girls and a boy were elected to fill them at the meeting of the Junior Fair Board Wednesday in the Farm Bureau auditorium.

Elected to fill the new positions were Roger Bonham, assistant president; Barbara Sue Kneisley, assistant treasurer; Marilyn Writsel, assistant secretary and Marilyn Heistand, assistant news reporter.

Business included Albert Cobb's suggestion that members of the Future Homemakers of America enter the style review competition in future years. At present, the entrants are 4-H members.

Cobb also suggested that the junior board print posters listing the names of all donors to the Junior Fair, and display them in the business windows of the donors. Roger Gorman and David Dray volunteered to do the groundwork for the plan.

David Dray suggested that the board print copies of its constitution and send to the advisors of all chapters of the groups represented on the board, the FHA, FFA and 4-H organizations.

Karma Kay Knox submitted the secretary's report in the absence of Frances Turner.

Guaranteed Wage

(Continued from Page One)

ing from the estimated 20,000 Rouge plant auto workers, Stellato said the UAW was adamantly against any renewal of a five-year contract.

"We're not going to delay the fight for the shorter work week for five years," Stellato said. The UAW has said its next proposal, after the year-around pay plan, is reducing the present 40-hour work week without loss of pay.

Stellato asked the Ford plant demonstration for a show of sentiment between the UAW's guaranteed wage demand and the Ford plan to allow company workers to buy Ford stock at half price.

The crowd of workers booed the company stock-purchase plan and cheered loudly for a guaranteed pay plan.

A secrecy agreement between UAW and Ford negotiators prevented any explanations of those talks, but this did not apply to the union negotiations with General Motors which have been idling along behind Ford, but may take on a new importance because of the closeness of the Ford and GM strike deadlines.

The Old Home Town — By Stanley

Woman Is Injured When Hit by Auto

Miss Lizzie Tway, who lives on North North Street opposite Grace Methodist Church, was badly injured about noon Wednesday when struck by an automobile driven by Maynard Carr, city.

Miss Tway was walking from the west side of North Street to the Grace Church corner when the Carr automobile headed east on Market St. swerved south into North Street and struck her, knocking her down, fracturing the small bone of her left leg and inflicting other injuries.

She was taken to Memorial Hospital in the Gerstner ambulance; where she still is a patient.

Police investigated the accident and announced that a charge of failure to yield the right of way would be placed against Carr.

Action Nearly Final On Drug Bill

COLUMBUS (AP)—The Ohio House yesterday virtually completed action on a bill to impose long prison terms in Ohio's stepped up war on illegal narcotics.

With only one dissenting vote, the House passed the Senate-approved bill drastically increasing penalties for drug peddlers, especially those dealing with minors. House changes in the Senate bill only increased the penalties approved by the Senate.

At the same time, the House Judiciary Committee voted 21-1 to postpone indefinitely further consideration of a proposal to change Ohio's utility rate-making formula. Such committee action usually kills a bill.

Little League Fund Hits Goal

More Can Be Used For Minor League

"It's in the bag, but the bag's still open."

That's how Walter Patton, chairman of the Little League's finance committee, describes the fund drive for the budding baseball program for boys here.

"There are a lot of people who still want to give," Patton pointed out, "and we of the finance committee don't see any point in frustrating them just because we've hit our original quota."

The recent decision by the League board to buy full uniforms for four minor league teams is going to put an added strain on the League budget, he said. "That will cost about $500, so any additional money we get won't be wasted," he declared.

Latest addition to the League kitty is a $50 contribution from the Boosters Club. The contribution moves the fund over its $2,500 goal.

The perspiration of the League financiers and the contributions of the public will pay off starting next Tuesday, when the first game will be played on the Wilson Field diamond.

Romulo 'Wary' Of Red Moves

COLUMBUS (AP)—Carlos Romulo, Philippine envoy to the United States, says he believes "we should be wary of Red China's release of four U. S. airmen.

He said "We don't want to be caught by a series of apparent, conciliatory moves . . . and then suddenly be placed on the defensive."

New Scout Chairman Named for District

SPEAKER AT THE ANNUAL BANQUET of Fayette Scouters was William MacKenzie (standing), Scout commissioner for Central Ohio. Flanking him are Kenneth Chaney (left), district commissioner, and Ed Moser, district chairman. (Record-Herald photo)

Colin Campbell is the new district chairman of the Boy Scouts of America. He was elected at Wednesday evening's dinner meeting of Fayette County Boy Scout leaders and executives and their wives at the Country Club.

Theme of the meeting was "The Scouting Partnership," stressing the vital part wives play in their husbands' Scouting.

A tribute to the ladies was a part of the recognition program, during which service pins were awarded to two Scouters.

Veteran Scouters' awards were presented to Kenneth Chaney, Fayette district commissioner, who received a 10-year pin, and James Yates, who was awarded a 20-year pin.

The speaker was William MacKenzie, Scout commissioner for Central Ohio, who spoke on "The Youth We Serve."

Reports by the chairmen of the various district committees followed, with the stress falling on membership in Scout units across the county. The total membership at the end of 1954 stood at 518 boys and 288 adults, bringing the grand total of Scouts and Scouters to 857

Reports on camping made mention of county units' participation in the Scout-O-Rama, the fall Camporee, Camp Lazarus and ten-day camping experiences.

Leader training, administrative meetings, community service and sharing of the cost of Scouting came in for discussion.

The meeting, opened by the invocation delivered by Rev. Clinton Swengel, followed the banquet. District Chairman Ed Moser led the meeting.

Among the guests were Donald Murdock, chairman of the Community Chest, and Mrs. Murdock; Perse Harlow, secretary of the Community Chest, and Mrs. Glen Pine, donor of the Scout campsite on the Flakes Ford Road.

2 Doberman Dogs Slay Mistress

TOMS RIVER, N. J. (AP)—A 64-year-old woman was found dead near her summer cottage yesterday, the mangled victim of her two Doberman Pinscher dogs.

State police said the two animals apparently turned on Mrs. Winifred W. L. Bacon and killed her. One of the dogs is male, the other female.

Mrs. Bacons left arm and shoulder were ripped, and authorities said the male dog's mouth and face was covered with blood.

The reason for the attack on Mrs. Bacon, who was a resident of Pemberton, remained a mystery. She had owned one of the dogs for four years and the other for two.

Meanderings

By Wash Fayette

This seems to be a great year for strawberries and some extra choice ones are coming into the local market.

Most of the strawberries are delicious, but I have never eaten cultivated strawberries with the marvelous flavor of the wild strawberries I picked along the fence rows when I was a barefoot boy.

I still recall those wild strawberries, which ranged from the size of a large pea to about one-third the size of the ordinary cultivated strawberries.

Probably because they were so few is what made them so good, but I remember one time when we found an unusually large patch the wild berries and they went into a strawberry cobbler to be eaten with sugar and cream.

I know it is hard to beat the flavor of some of the berries now in the market, and perhaps my recollection may be influenced by something that was really very, very delicious to a hungry boy, but I never expect to find the same flavor in any strawberries as those wild ones picked in years gone by.

Dallas Building Falls, Killing At Least 3

DALLAS (AP)—At least three persons were killed and eight injured when a downtown building collapsed on top of another structure last night. Rescue workers dug through the rubble today searching for other bodies.

Early estimates said as many as 15 might have been trapped in a music store and a combination smashed by the falling building. The two businesses were in a story-and-a-half building. The edifice that first fell was a vacant, three-story structure being razed.

Killed were Luther Gonzales, 32, Alvis B. Simmons, 40, and William E. Kirby, 42, all of Dallas.

One of the injured was a woman, Mary Henjy, 36, of Dallas.

Witnesses said that when the building fell, it sounded like a "bomb" or "explosion." It snapped trolley wires and dumped rubble four feet deep in the street. Bricks hit store fronts across the street.

In the cafe, a stuffed deer head poked up from the rubble, along with counter stools and splintered glass. Musical instruments were twisted almost beyond recognition in the music store.

Police Destroy Marijuana Field

CHICAGO (AP) — Cook county police used flame throwers yesterday to destroy a 10-acre patch of nearly ripe marijuana in suburban Lemont township.

Sheriff Joseph D. Lohman said the marijuana was not growing wild, but had been cultivated. He said the growth, if harvested and made into cigarettes, might have been sold to addicts for as much as $1½ million. Lohman said the patch had been under surveillance for nearly three weeks by deputies seeking to trap the grower.

Baby Whirlwind Hits Atlanta Yard

ATLANTA (AP) — A baby whirlwind danced into an Atlanta yard today, whipped a 100-pound boat 60 feet into the air and ripped a hole in a house roof.

But the wind missed everything else in the yard of Donald E. Magennis.

Petals on rose bushes in the yard were unruffled.

Notice To Yeggs

BOSTON (AP)—The sign on the safe in the office of Builders Specialties Co. read:

"Please do not open this safe as it contains less than $50."

Thieves ripped open the safe anyway, police were told yesterday.

It contained $256.

Fliers Tell Of Their 2 Years In Communist Chinese Jails

HONOLULU (AP)—Four American fliers, chipper and gay despite more than two years of Chinese Communist brain - washing attempts, rejoin their families today.

Nine of their closest relatives, collected from across the United States in an Air Force plane, were scheduled to land at Hickam Air Force Base today.

The airmen — Lt. Col. Edwin Heller, Capt. Harold E. Fischer, Lt. Roland W. Parks and Lt. Lyle W. Cameron—told of their prison experiences at a press conference last night a few hours after they arrived from Hong Kong.

They talked freely but balked on two points—whether they signed a confession to win their freedom and whether their planes crashed in Chinese or Korean territory.

They said they "played along" with Red attempts to brain-wash them and pleaded guilty to Communist charges of "intruding China" and "provocative attack."

But, they insisted they remained unaffected by the Reds' attempts to sell them on communism.

Maj. Gen. Sory Smith, Pacific Air Force commander, struck a sober note. He said: "We have four men here. There should be 15. Please keep that in mind."

Smith referred to 11 other American fliers still held captive by the Communists. The implication was that anything the four might say might be used against the 11.

The warning was clear. It may have been why the men talked little of their worst experiences and much of the lighter side.

The men themselves indicated there was still "40 or 44 American nationalists still in China,' possibly including some Navy personnel. They said they had heard of a Navy plane shot down.

In Washington, the State Department said it believes the Chinese Reds hold 63 Americans.

Heller, who limps from injuries he received in bailing out of his plane, spent two years in a Chinese hospital. Fischer had 11 months in solitary confinement, Parks 8 and Cameron said, "I had it soft, I only had six months."

All agreed they were treated better than they had expected. But that could mean, as Fischer said, "I was glad I was alive."

Their food, Heller said, was

Harry C. Parrett Called by Death

Widely Known Here As Well Driller

Harry C. Parrett, 78, Oakland Avenue, city, lifelong resident of Fayette County and descendent of one of the pioneer families of Fayette County, died in Memorial Hospital Wednesday at 6:45 P. M., following a heart attack suffered Friday. He had been a patient in the hospital since Monday.

Harry C. Parrett

Mr. Parrett was a widely known, expert well driller and followed that work for approximately 45 years, drilling hundreds of wells throughout Fayette and adjacent counties.

It had been said that by reason of the large number of wells drilled, and close observance of the type of material through which the drill passed in each well, he knew more about what was under the surface in Fayette County than any other man.

* * *

IN ADDITION to his well drilling, he also was engaged in farming and plumbing work. For sometime he was interested in a large garage on North North Street.

He was a man of many fine traits of character and as a result made friends wherever he went.

His parents were Capt. Thomas F. and Mrs. Mary Belle Coffman Parrett.

Surviving are his widow, Mrs Madge Parrett; one son, Robert C. Parrett, Washington C. H. funeral director; a daughter, Miss Dorothy Parrett, and a granddaughter, Martha, all of Washington C. H. He also leaves two brothers, Carey G. Parrett of Bloomingburg and Louis C. Parrett of the Chillicothe Highway.

He was a member of the First Presbyterian Church here.

Funeral services will be held Saturday at 1:30 P. M. at the Parrett Funeral Home. Interment is to be in the family lot in the Washington C. H. Cemetery.

Rev. Harold Braden and Rev. Charles Ware will conduct the services.

Friends may call at the funeral home at any time.

Ohio Senate Expected To Cut Poor Relief

COLUMBUS (AP)—The Ohio Senate is expected to cut the state's share of poor relief funds for the next two years.

The size of the slash isn't settled yet. It could be as much as $2½ million, Tom V. Moorehead (R-Muskingum), chairman of the Senate Finance Committee, indicated today. That would reduce the state's relief spending to $29 million in the next two years.

The state welfare department asked for $35 million; Democratic Gov. Frank J. Lausche trimmed that figure to $31½ million. The House approved that amount.

Moorehead said there are two reasons for the impending slash:

1. Real relief needs, with efficient administration, are lower than Lausche's budget request.

2. The state needs every cent it can shave from Lausche's budget for other things, principally schools.

The Republican-controlled Senate began a field investigation of soaring relief costs two months ago.

* * *

IT CONCLUDED some relief standards are too high; that many big city relief agencies can do adequate jobs with less money.

In 1953, the Legislature appropriated $17 million for the state's share of poor relief in the two-year period which ends June 30. But because of the 1953-54 business dip, another $8½ million was added to make up a deficiency in state funds to match the relief spending by cities and counties. That made the 1954-55 total $25½ million.

Said Moorehead of the planed cut in 1956-57 relief appropriation:

"Total poor relief costs in Ohio increased 50 per cent from 1952 to 1954; in the same period costs of medical and hospital services for poor relief recipients increased 100 per cent.

"A study reveals that wide variations exist throughout the state in standards of relief granted and in local policies of administration. The results indicate greater efficiency in administration and stricter policies are possible, which, if adopted by all local welfare agencies, would make possible a dollar saving without reducing service to the needy.

"The reduction that is possible in hospitalization costs added to the other areas of relief administration where costs could be decreased (for example, the payment of debts for relief recipients) would result, it is estimated, in a considerable saving to the state from its relief matching funds."

Girl, 8, Found Brutally Slain

KALAMAZOO, Mich. (AP) — An autopsy showed today that little Jeanie Singleton had been raped, beaten and apparently choked to death by a sex deviate.

The bruised body of the 8-year-old school girl was found late yesterday in a lonely pine woods 15 miles north of Kalamazoo.

Jeannie, left lame by an attack of rheumatic fever four years ago, was last seen 10 days ago resting on a curb a half block from her home on her way home from school.

Farmers Say Wheat Quotas Hurt Rotation

BALTIMORE (AP)—Local farmers have testified in federal court that the government's wheat support program throws crop rotation out of gear.

They were defense witnesses at a hearing of the government's motion for an injunction against farmer Louis Shafer.

The move for an injunction resulted from a trespassing charge brought against three government wheat acreage inspectors. That charge was brought last month after the inspectors had been prevented from measuring the acreage on the Shafer farm.

Frederick A. Feeser of Taneytown told the court he has 19 head of cattle and needs wheat for straw and manure. He was allotted only 12 acres for wheat.

Feeser said he needs 60-70 acres of wheat to keep his rotation system going.

Wilbur Stonesifer said he "can't rotate" because he only got a six-acre wheat allotment on his 92-acre farm.

Earlier Rolla M. Myers of Attica, Ohio, testified he was "refused" his right to vote on quotas in the last referendum because the committee which allotted acreage didn't give him enough to make him eligible to vote.

Marilyn And Joe On Friendly Date

NEW YORK (AP) — Marilyn and Joe had another date last night, but it doesn't necessarily mean that Miss Monroe is about to become Mrs. Dimaggio again.

"We're just good friends," Dimaggio said. "We do not plan to remarry. That's all I care to say."

He took Miss Monroe to a preview of her new film, "The Seven Year Itch," at a Times Square theater and then gave a party in honor of her 27th birthday at a midtown restaurant. The couple was divorced last Oct. 27 after a 10-month marriage.

Hail Hits Kansas

GREENSBURG, Kan. (AP) — An estimated five inches of rain and hail yesterday deluged central Kansas. Some farmers reported a total loss of wheat.

3,000 Prospectors Ready For Big Rush For Claims

BAKERSFIELD, Calif. (AP) — A uranium stampede reminiscent of California's roaring gold rush days is expected to hit Kern River Canyon, 40 miles east of here, tomorrow morning.

Predicting an "explosive situation," Sheriff Leroy Galyen has ordered 75 armed deputies into the canyon today. They will confiscate all firearms.

Up to 3,000 prospectors may swarm into the area to stake a similar number of 20-acre claims when the land is opened for staking at 10 a. m. The area comprises some 60,000 acres.

Already located there are two mines. One consists of the Kergon claims, held by the Great Lakes Oil and Chemical Co., and the other is the Miracle Mine of the Wyoming Gulf & Sulphur Co. Miracle has shipped more than $4,000 worth of uranium 308. It is California's richest uranium strike.

Miracle also has been stockpiling ore pending settlement of a claims dispute which has resulted in widespread confusion among prospectors.

After uranium was found in the area, fortune hunters rushed in with the same enthusiasm which marked the search for gold a century ago. Stakes were driven all over the rough hillsides, which form the west flank of the Sierra.

And then it was discovered that the land had been withdrawn from the public domain some 30 years before, at the request of the Southern California Edison Co., to become a power reserve. Prospectors immediately sought the assistance of the Atomic Energy Commission.

They were successful and the area reverted to public domain. For a time it was believed that the claims already staked would be validated. But the Bureau of Land Management ruled otherwise.

This meant that the stakes must be driven all over again, to remove the stigma of trespassing, and it is the reclaiming process which will start tomorrow.

Detroit Paper Says Action 'Unprecedented'

Report Declares Firm To Set Up $55 Million Fund For Employees

DETROIT (AP)—The Ford Motor Co. has accepted in principle the United Auto Worker unions guaranteed anual wage demand, the Detroit News reported today.

The newspaper, saying it had learned this from "a high union official," reported that the Ford offer entails a $55 million fund "unprecedented in industry."

"It appears to represent some of the thinking of both Ford's previous 'partnership in prosperity' offer and the union's guaranteed annual wage plan," the News said.

"It accepts the principle of providing for a Ford employe while he is out of work—the principle on which UAW President Walter Reuther insists."

The News said this was the gist of the Ford offer as it obtained them from the union source:

"Payments based on a percentage of each weekly payroll will be made into the fund.

* * *

"UNDER THE plan, when a Ford worker is laid off he would draw his customary state unemployment compensation.

"When he had exhausted these state benefits, he would begin drawing from the company's job security fund. The size of the weekly checks from the fund we not disclosed by the union official."

State unemployment compensation payments vary widely between states. In Michigan the average state payment to an unemployed worker is $30.13. The national average is about $25.

The UAW, in its widely-publicized guaranteed anual wage plan, has been trying to get the auto industry to commit itself to pay idle workers 80 per cent of their normal gross earnings for as long as a year, less any state unemployment payments he might receive.

The union met this morning with Ford negotiators and this afternoon with General Motors.

With the emphasis in the auto industry negotiations previously on Ford, the imminence of a showdown with GM led to speculation that both major auto firms were equally under the union's fire.

The union pledged in granting the Ford contract extension to Monday, that the UAW would stage strikes in all 57 Ford plants then if there was no "satisfactory" settlement.

The union still was pressing its guaranteed anual wage demand calling for year-around pay for workers laid off in slack production periods. Ford's first counterporposal to this demand was a combination offer to permit workers to buy Ford stock at half price, borrow during enforced idleness and get severance pay upon discharge.

Carl Stellato, president of Ford's biggest local at the huge Rouge plant here, told a workers mass meeting yesterday afternoon that Ford had bettered this offer, but he declined to reveal details. He said a half dozen union economists were trying to evaluate the ne Ford proposal.

* * *

THE NEW FORD offer was reported in other quarters to contain a plan for the company to augment present state unemployment compensation payments to furnish workers with continued income during periods of idleness in slack production periods.

Witch Doctor Held On West Coast

LOS ANGELES (AP)—Police are holding a man they say claims to be a witch doctor.

Officers said Florentino Morales, 54, has been treating ailing Los Angeles residents with an assortment of equipment including black candles, effigy dolls, silk scarves and plaited hair switches.

He was arrested after an ailing housewife said he agreed to cure a pain in her chest for $300 with a treatment including a candlelight ritual dance. Morales was jailed for practicing medicine without a license.

The woman, Mrs. Geronima Banuelos, 42, is in a hospital. Her ailment has not yet been diagnosed.

Father and 3 Sons To Go To Prison For Car Thefts, Including One Here

A father and three sons, who were involved in automobile thefts in Washington C. H., Hillsboro, Georgetown and other places, have been sentenced to the federal penitentiary.

The father, Glen Lovely, 46, of Union, S. C. was given five years in federal prison and his three sons each drew one to three years.

The sons are Milton, 23, Edwin, 22, and Burton, 20, all of Union, S. C. The father operated a service station and used car lot where he disposed of the cars stolen in several states.

In passing sentence Judge J. M. Duffel of the federal district court at Cincinnati, said ironically to the father:

"You should be proud of the raising you are giving your sons".

FBI agents who were called in on the thefts, said the group had stolen at least 19 cars in Washington D. C., Ohio and Kentucky.

The court also was told that the father planned the thefts and the sons were dominated by him and required to assist in the thefts.

Lovely and one of his sons were arrested by police in Hillsboro while they were waiting to steal a car from a used car lot when night came. The other two sons were nabbed in Union.

Their plan was to contact used car dealers, pick out an exceptionally good car, and ask for a test of the car. During the test they would obtain the number of the ignition key, have a duplicate made, return to the used car lot at night and drive off with the car.

This method was followed at the Houseman Auto Sales used car lot on West Market Street here, where the father and one of the sons came back at night with a duplicate key and drove the car away.

The father probably will serve time in Atlanta Federal prison and three sons in the federal reformatory at Chillicothe.

Virginian Wins 2,500 Contests

HOLLYWOOD (AP) — It was 32 years ago that G. Gordon Browder of Norfolk, Va., entered his first slogan contest and won $5.

He estimates that since then he has won 2,500 contests for a total of $20,000, 17 trips, five automobiles and a college course in business.

Browder is in Hollywood to explore the possibilities of a movie about his life.

Yellow Line Crossers Nabbed

Sherriff To Continue Drive On Offenders

Sheriff Orland Hays, continuing his drive against yellow line offenders, arrested two drivers Wednesday and said he expects to continue the arrests in an effort to reduce some of the reckless driving on the highways of the county.

The two arrested for passing on yellow lines were: George E Rhoades, Piketon, and Carlie Marvin Hopkins, Akron. Each posted $25 bond for appearance in municipal court

A number of such offenders have been picked up by Sheriff Hays and his deputies recently.

Police arrested Jack Ellis Stuckey of Navarre, for driving 39 miles in a 25 mile zone on West Court Street and John K. Burkard, Hillsboro, for 38 miles in the same zone.

Police also picked up two young girls who had run away from home in Springfield, and held them until their parents came after them They were 13 and 16 years old.

Acrobat Squeezes 8 Years Education Into 3 At College

SYRACUSE, N. Y. (AP)—Margaret Gregory, who spent her early years riding a unicycle in her parents' vaudeville act, will be graduated from Syracuse University Monday after squeezing eight year's of education into three.

"I never had a chance to go to school," she says. "We were just never in one place long enough. But mother did her best to teach me the three R's."

When the red-haired collegian gets her bachelor of arts degree, it will culminate three busy years in which she has completed normal four year courses in both high school and college studies.

Miss Gregory, 32, was born in Petersburg, Va. and for 15 yaers was part of the family bicycle acrobatic act.

Newspaper Aide Serves His 'Term'

CLEVELAND (AP) — City Editor Louis Clifford of the Cleveland Press served a one-hour contempt of court sentence yesterday in the custody of the Cuyahoga County sheriff.

The newspaper also paid fines and costs totaling $647 87 imposed in September 1953, when the Press was convicted of ignoring a judge's ruling against photographs at an arraignment in Common Pleas Court. Of the fines, $500 was against Clifford and $100 against Sam Giamo, a reporter. A fine against James Thomas, the photographer involved, was suspended.

The Press carried an appeal all the way to the U.S. Supreme Court which refused to review the case.

Who Profits By Government In Business?

Regardless of costly lessons of the past, there are still numerous politicians, calling themselves "progressive", who continue to advocate government ownership, or at least much stricter government control of many lines of business. They garner a lot of votes this way and continue to "sound off" in their speeches on the theory that people could thereby get things at cost by eliminating the "profit motive".

Time after time the fallacy of this talk has been proven but the eloquence of the advocates of "let the government do it" seem to cast a spell over the minds of many individuals who refuse to think through this over-worked theory.

Thousands of tax-paying private companies each year issue their annual financial statements. The amount they show they are paying in taxes would offset many times any so-called gain which any part of the public would receive by the process of wasteful government control. And the owners pay the taxes before they get any business profit return; then they pay again on their personal returns.

Let's see who profits most from the earnings of business by, as an example, looking at five financial statements of certain lines of business.

A well known hardware and household supply company: dividends and interest to stockholders, $1,156,000. Dividends to government (taxes) $1,488,000.

A small corporation dealing in patents, electronics, etc.: dividends to stockholders, $1,400,000; dividends to government (taxes) $3,300,000.

A midwestern railroad: dividends to stockholders, $10,278,000; dividends to government (taxes) $10,409,000.

A moderate sized electric company: dividends to stockholders, $4,000,000; dividends to government (taxes) $7,700,000.

A large oil company: dividends to stockholders, $49,000,000; dividends to government (taxes) $139,700,000.

On every business the government takes over, it loses the taxes because government business is tax-exempt. But government's need for taxes is not thereby reduced. Instead it is increased, and the lost taxes are loaded onto remaining taxpayers as one penalty for socializing American enterprise.

Unique Job: Guest Finder

By Hal Boyle

NEW YORK (AP) — In the antic, frantic world of television there are many odd jobs.

Pretty Mary A. Kelly, who is regularly kissed by a chimpanzee and recently rubbed noses with a $750,000 horse, has one of the oddest. She is a "guest finder."

Miss Kelly, a rugged, bountifully built young lady with Irish redhair and hazel-green eyes, is a feature editor and writer on Dave Garroway's "Today," an NBC network morning program. But one of her chief chores is to rout famous guests from their beds in time to appear on the show.

"Four out of five days I have to be up by 5 o'clock," said Mary. Usually she knows the night before the guest she is supposed to meet.

But sometimes the studio phones her at 4 a. m. to tell her she is to pick up Mrs. Franklin D. Roosevelt at her hotel, go down the bay to get comedian Jerry Lewis off an incoming liner and steer him through customs, or race out to the airfield to meet a missionary just released from Communist China.

On one quest, finding the hotel elevator unattended, Mary stepped in and operated it herself, managing to hit the right floor after a few misses. On another, a hotel detective, seeing her sitting in the loby, asked her mission, and Mary replied:

"Trying to pick up a guest."

This seemed to confirm the detective's worst suspicions.

"It took a phone call to the network to straighten that out," said Mary, laughing.

Miss Kelly, who started as a typist for a Hartford, Conn., insurance firm, came here at 19 and landed a job as a newspaper copy girl. Later she worked for a feature syndicate before going into television.

Only once has Mary let a guest get away. One morning she went to pick up Ava Gardner and found the film star had moved out the night before without leaving word of her new address.

Her toughest assignment was to find Alexander Kerensky, head of the Russian provisional government in 1917, the morning Premier Stalin died.

"All we knew was the street he lived on," she recalled. "So I started pushing strange doorbells. He didn't have his name on his doorbell, but I finally found him."

Nathan Hale's 200th Birthday

By George Sokolsky

On June 6, the 200th anniversary of Nathan Hale's birth will be celebrated in Coventry, Connecticut. Nathan Hale studied at Yale, joined the Revolutionary Army, was stationed in New York as a captain. The Revolutionary headquarters were on Harlem Heights. The city of New York, which was in those days downtown, was held by the British who were welcomed by the many Tories who preferred prosperity to freedom.

Nathan Hale voluntarily undertook to walk through the enemy lines and report to George Washington on conditions within the city and the general attitude of the people. He dressed as a Dutch schoolmaster, and with success he managed to get the desired information. Somehow he made his way to Long Island and was on his way back to Harlem Heights, when he was caught, convicted of espionage and hanged.

His last words on the gallows were: "I regret that I have but one life to lose for my country."

Nathan Hale was a voluntary spy and informant. He is remembered in American history only for that and for his immortal last line. No other event in his short life — he only lived 21 years—is noteworthy of historical memory.

Had King George III won the Revolutionary War, many great figures in our history, who staked their lives, their property and their sacred honor, in the cause of the Revolution, would have been hanged. Among them would undoubtedly have been George Washington, Thomas Jefferson, John Hancock of the enormous signature, and such firebrands as Samuel Adams, James Otis and Patrick Henry.

But the Revolutionists won the war and Nathan Hale went down in history as a patriot who spied for a good cause and proposed to inform on those who were enjoying the hospitality which the rich New York Tories were showing the British.

Nathan Hale's memorable last words used to be taught to children in our public schools so that they too would be impressed by the ideal of patriotism. In these days of greater wisdom, patriotism is eschewed as excessive nationalism and our children grow up without even knowing the name of Nathan Hale.

They also do not know about General Benedict Arnold, the close friend of George Washington, who became a traitor.

So there is the contrast, Nathan Hale, the heroic informant, and Benedict Arnold, the traitor. In these days of excitement over spies and informants, it is interesting to recognize that informants existed at the very beginning of our nation. There was no FBI but there were informants. And undoubtedly among them must have been the womenfolk of the "liberty boys," that voluntary organization, mostly of the newer immigrants, including many from Ireland. These women worked in the very homes where the Tories were entertaining the British and surely they remembered much that they heard and got word to George Washington and his staff.

How does one get information without informants? Perhaps the current body of informants will band together into a society called "The Sons of Nathan Hale," who would then be their patron saint and give an historic halo to their activities. A few names of informants have become well-known, such as Louis Budenz, Elizabeth Bentley, Benjamin Gitlow, Herbert Philbrick, etc., etc., and there has, of course, been Harvey Matusow, who would by now have been expelled from such a society as unworthy.

But always there will be spies and informants and wherever there was statues or other memories of Nathan Hale, at Coventry, at Yale, or in New York, there must be a reminder that the vocation of spying and informing is a risky one which may lead to death or the contempt of other men. The compensation is a self satisfying emotion that one has done something for his country that others would not do. The young man or woman who infiltrates the communist party for the FBI, and there are many of them even today, is taking all the risks that Nathan Hale took and while death may not come on the gallows, it may come, as it did to Carlo Tresca, from a bullet on a city street. But it is worth it if the country needs that kind of anonymous work.

And as long as Americans are to be found who will risk greatly for their country, we shall be a strong nation.

WEARING INDIVIDUAL costumes of their own choice, the four surviving Dionne quintuplets leave their home near Callender, Ont., for a rail trip to Montreal. Their mission, to make arrangements for release of a trust fund estimated at nearly $1,000,000, which becomes their own now that they are 21. Diet and Health

Diet May Be Cause If You Have Hives

By HERMAN N. BUNDESEN

The allergy known as hives is frequetly caused by sensitivity to certain goods.

It's an easy matter for doctors to diagnose the disorder. Intense itching generally is the first symptom, followed by the appearance of swellings on the skin. The swellings vary in appearance from small pinhead spots to areas as large as a dinner plate, and they contain fluid.

Come and Go

Ordinarily, crops of hives come and go. The lesions remain in one area for several hours and then disappear only to reappear elsewhere. The lining membranes of your mouth, stomach and throat may also be affected by the painful swellings.

There are various methods of treatment. First, your doctor must determine what is causing your allergy. While dust and pollens sometimes are responsible, the cause of hives usually can be traced to foods.

Simple Diet

I would suggest you eliminate the following foods from your diet at the first sign of hives: Cheese, chocolate, mushrooms, onions, tomatoes, eggs, pork, citrus fruits, melons, fish (especially shellfish), pickles, garlic and alcoholic beverages. Sometimes hives can be blamed on wheat, milk, nuts, certain fruits and vegetables. Your diet should be simple and low in proteins.

If your case of hives is attributed to foods, your doctor may suggest you take castor oil or an enema to relieve a fresh outbreak. This usually is followed by a dose of sodium bicarbonate to irrigate the colon.

He may then prescribe cortisone or hydrocortisone. Both have produced good results. Epinephrine injections, lime or calcium preparations are also of value.

QUESTION AND ANSWER

L. M.: What causes blood pockets in the first layer of the skin on the arms?

Answer: This is probably what is known as purpura. A person with this condition should consult a physician. Have a careful checkup, including a complete examination of the blood so that the clotting time, bleeding time and the number of blood platelets, which help in the clotting of the blood, may be determined.

Mayor Is Accused In Arson Case

PAINESVILLE (AP)—The mayor of nearby Mentor Lake has been charged with attempted arson of a next-door neighbor's home.

C. G. McKinley, the mayor, pleaded innocent to the charge at his arraignment in Municipal Court here yesterday and was freed on a $1,000 cash bond.

Assistant County Prosecutor Henry Rand said McKinley tried to set fire to the small frame home of Mr. and Mrs. Garland Hickman, who live in Mentor Lake. The Hickmans, who have been living in the house six years, purchased it from McKinley. Rand said McKinley admitted throwing oil against the house but denied he intended to ignite it.

The Nation Today

James Marlow

WASHINGTON (AP) — The Kremlin's present rulers seem to be trying hard to show they're different from their old boss, stolid, stubborn Joseph Stalin.

This may go far to explain why the Russians of late have been acting moderately and even cooperatively, as they did in letting Austria have independence.

They probably figured it was time for a switch, that they could catch more flies with molasses than vinegar. Stalin was a real Vinegar Joe.

He got Russia into a dead end. With his inflexible harshness he forced the Western allies into rearmament and unity, the last thing Russia wanted.

Three of the top Russians, visiting Yugoslavia under the eyes of Western newsmen, act like go-getting businessmen admiring a competitor's establishment.

They examine a Yugoslav factory and commend the amount of cement that was used to build it. They say publicly their own Russians depend too much on steel.

Their performance to date—in public—has been a combination of visiting firemen, jolly good fellows and cousins to the Yugoslavs.

Nikita S. Khrushchev, Russia's Communist party boss, gaily explains to an Associated Press reporter why he talks so fast: "Life is short. Live it up."

While their flat tire is being fixed, Khrushchev and Anastas I. Mikoyan, deputy Premier, have a friendly wrestle in the fields in full view of onlookers.

If the West has obtained one clear insight from the visit of Khrushchev, Mikoyan and Premier Nikolai A. Bulganin, it's this: Khrushchev is the real boss of Russia.

This was the first chance Western observers have had to see these leaders in public day by day and in varying situations and watch for signs of leadership.

I was Khrushchev, head of the Russian Communist party, and not Bulganin, head of the Russian government, who did most of the talking.

Stalin, fixed in his ways, moved ahead by plunging forward like a bull. He never seemed to change. And almost every time he moved he made new Western enemies. That sardonic, seldom-smiling man must have been hard to take even by his intimates.

There can be no doubt Khrushchev and the others want precisely what Stalin wanted: a Communist world. The difference between Stalin and his successors is not in aim but in tactics.

The new Kremlin men are trying to appear better natured and more reasonable. If in that way they can soften up the West and weaken the alliance, so much the better for them. If it doesn't work, they haven't lost anything.

It's possible the Russian leaders have decided that a hydrogen bomb war would mean disaster for everyone and that therefore they had better try to get along with the West without war, although still not abandoning their long-range goal.

But that has to be demonstrated by their future actions. They haven't done much more than talk yet. It's possible they've decided the obvious dictator type, like Stalin, is old fashioned and has to be replaced by smoother methods.

Senate Votes Increase In Postal Pay

WASHINGTON (AP) — The Senate wednesday passed a bill to raide salaries of the 500,000 postal workers an average of 8 percent after being assured it was acceptable to President Eisenhower.

The rollcall vote was unanimous.

The Senate debated only half an hour, and sent the bill to the House where the Postoffice and Civil Service Committee plans to meet on it Thursday.

It is a substitute for a postal pay hike measure vetoed by the President May 19. That measure carried pay raises averaging 8.6 per cent and fringe benefits which took the over-all total up to 8.8 per cent.

The bill passed today gives each postal employe a 6 per cent raise retroactive to March 1. The additional 2 per cent involves reclassifications features demanded by the President. These will mean much larger increases than the average for some upper-bracket employes.

Before final passage, Sen. Butler (R-Md) attempted to add on an amendment to give 8 per cent pay raises to the one million classified civil service employes.

But Republican Leader Knowland (Calif) raised a point of order against this, contending it was not germane to the postal measure. Sen. Barkley (D-Ky), the presiding officer at the time, sustained the point, killing the amendment.

Skid Row Hotel Owners Rapped

CHICAGO (AP)—A coroner's jury of building experts has condemned the owners and operators of a skid row hotel "for gross negligence" in a fire fatal to nine.

The fire occurred May 6 in a hotel where 77 men were sleeping in 6 by 7 feet cubicles with corrugated iron walls and wire screen ceilings. Cause of the blaze was not determined.

The jury said "gross negligence" is not tantamount to "criminal negligence." It said the hotel management did not notify the fire department properly and the employe on duty made no attempt to fight the fire himself.

Celestial Spots May Be Moons

Mysterious Sights Seen By Amateurs

By FRANKLIN JOHNSON
(Central Press Association)

CHICAGO — Tangible evidence that the earth already may have many small "moons" similar to the man-made satellite some scientists are advocating may have been uncovered by a pair of amateur astronomers at Skokie, and Wauconda, Ill., near here.

John P. Bagby and Richard Hoi puch have captured the attention of star gazers around the world with their reports of observations at various intervals during the last 12 months of what appear to be about 100 "moonlets" at an approximate height of only 475 miles

Bagby recently reported on their findings in a scientific paper he read at the Adler planetarium here, and during coming months he hopes that other amateurs as well as some professionals in all parts of the world will double check the observations.

Interest in any tiny heavenly bodies that might be circling the earth has been steadily increasing in recent years with the speculation that man's first real excursion into space would be in that form, first with a robot satellite and later in one he might ride.

* * *

LAST AUTUMN it was revealed by Dr. Lincoln La Paz, head of the Extra-Terrestrial Bodies institute at the University of New Mexico, that he had investigated for the Air Force two meteors which apparently have become attached to the earth as perpetually revolving satellites at heights of from 400 to 600 miles.

Jitters over recurrent reports of flying saucers and other such phenomena have caused speculation that the objects observed by Dr. La Paz, as well as those seen by Bagby and Holpuch, may be maneuverings by some intelligent creatures from outer space or perhaps man-made satellites secretly launched by someone here on earth.

These are discounted by astronomers, however, and Bagby points out that the failure heretofore of telescope operators to spot the small satellites may be the natural result of most observations being made on high powered equipment designed to penetrate ever deeper into the heavens.

When Bagby and Holpuch telephoned some of their observations to the Dearborn observatory at Northwestern university and the Yerkes observatory at Williams bay, it proved difficult for them to focus sharply on such near targets and the high speed and diffraction effectis prevented positive confirmation.

Bagby and his associates calculated that the objects they have seen may travel as fast as 18,000 miles an hour, taking only an hour and a half to circle the earth. Some may be as close as two hundred miles high.

* * *

IT HAS BEEN calculated that a man-made satellite would "stand still" and remain motionless as viewed from the earth, if its plane lay in the celestial equator. However, this phenomenon would not be achieved unless the object were 22,268 miles away.

The two-inch telescope used by Holpuch and Bagby's six-inch reflecting instrument, built by the amateurs themselves, are more or less ideal tools for spotting "moonlets." The most favorable time to do the observing is when the objects are silhouetted against the nearly full moon or the sun near the horizon

Holpuch first saw them when he and his wife were watching a waxing gibbeous moon shortly after sunset nearly two years ago, and he immediately telephoned Bagby that he was seeing small objects crossing the moon singly and in small groups.

This started a long series of observations by the amateurs and their friends, reaching a climax last autumn when they had a party of 19 other observers on hand to double check them when they again saw the celestial procession.

* * *

BAGBY then turned to astronomical literature, and discovered that from time to time such observations have been reported in the past from Palermo, Sicily, Naples, Mexico City, and Magdeburg, Germany, but they had gone virtually unnoticed.

Although Bagby is an amateur in the sense that his real occupation is that of chief of mechanical design for the Cook Research laboratory engaged in intricate national defense work, he belongs to the Burnham Astronomical society, the American Meteor society and the Royal Astronomical society of Canada, and could qualify as a professional if he turned to that field.

Now he is enlisting the aid of amateurs and professional stargazers throughout the world to correspond with him in future months about their observations of the phenomena, and as a guide in sending them scientific descriptions of his observations.

NORBERTO Garcia, 5, of New York, is shown with his sister, Elizabeth, after he was awarded $190,000 for losing his left arm and leg in an accident when he was hit by a bus. The amount is a record settlement for a child.

America's Gallant Males Mystery To Japanese Girls

By DOROTHY ROE
Associated Press Women's Editor

Of all the wonders of the world they've seen, the greatest so far as two Japanese airline stewardesses are concerned, is the American male and the way he goes around offering to carry handbags and open doors for them

That's not the way they do it back home, they say. For Kikuko Sasaki, 25, and Pumiko Shiba, 21, who regularly fly the Pacific for a Japanese airline, such carryings-on are downright embarrassing.

"We always feel we're taking advantage of these gentlemen," says Kikuko in her prfect English "In Japan the woman always carries the bundles and waits on the man."

"When we land in Honolulu or San Francisco," adds Pumiko, "The men of the plane crew carry our luggage for us, but when we land in Tokyo we carry our own."

Both girls are college graduates, natives of Tokyo, look like Japanese dolls and are enraptured with their new careers as international travelers. Kikulo has been with Japan air lines since it started in 1951, and Pumiko since 1953. They are among 70 stewardesses chosen from 4,000 applicants for the glamorous jobs which opened new horizons to these girls.

In New York for a brief and thrilling visit, they raced from Radio City to the Empire State Building and from Fifth avenue shops to the Museum of Modern Art, determined to cram as much sightseeing as possible into the little time left to them between television appearances and interviews.

WILL AND WAY

Where there is a will there is a way;
Determination and to God pray;
These will help you through the darkest hour—
Help you things to do, give strength and power;
Help to overcome a handicap,
May lay fame and fortune in your lap;
Have the will and way will be given;
Directed right—are road to Heaven.

Second Ohio Tot Felled By Polio

COLUMBUS (AP) — The state health department has confirmed the second case of polio among the 380,000 Ohio school children who received Salk anti-polio shots

Dr. Martin Keller, acting chief of the department's division of Communicable diseases, said it has been determined 8-year-old David Long of Weston, Wood County, has polio.

The Long boy was inoculated with a vaccine turned out by the Wyeth Laboratories, Philadelphia.

At the same time, Dr. Keller said there were six new polio cases in Ohio last week, bringing the total for the year to 51. During the corresponding week last year, 12 new cases were reported, which brought the 1954 total to 76 .

New Officers Are Elected By Sorority

Mrs. Edwin Thompson was hostess at the regular meeting of Alpha Theta Chapter of Epsilon Sigma Alpha Sorority Wednesday evening.

Mrs. Dwight Martin, president, presided over the ritualistic opening and also the candlelight jewell pin ceremony, for Mrs. Howard Burnett, around a lace covered table decorated with the sorority colors, blue and gold.

During the ceremony Mrs. Burnett received a beautiful corsage as a gift of the Chapter.

The usual reports were heard and approved and correspondence was read from International.

Election of officers for the new year resulted in Mrs. Charles Gibeaut being chosen as president, Mrs. Sam Athey vice president; Mrs. Dwight Martin recording secretary; Mrs. David Moore, corresponding secretary; Mrs. Howard Burnett treasurer; Mrs. Gail Mershon point recorder; alternates Mrs. Samuel Wilson and Mrs. Frank Junk and Mrs. Gordon Davis jonquil girl.

Plans were made for the annual picnic for members and their families at the City Park June 12, and the revealing of secret sisters was followed with the drawing of new names for the coming year. Several new amendments were added to the constitution and by-laws and a new finance committee appointed consists of chairman of the ways and means and the treasurer to function during the year.

The meeting was closed according to the ritual and a dessert course was served by the hostess during the social hour.

Jeffersonville WSCS Circles Hold Meeting

The June meeting of the combined circles of the Jeffersonville Methodist Church, W.S.C.S. was held at the church Wednesday afternoon.

Mrs. Harold Zimmerman, president, conducted the meeting and the opening hymn was followed with the praying of the Lord's Prayer by the group.

The secretary Mrs. Ruth Williams gave her report as did the treasurer Mrs. Almer Robinson.

Twenty-two members responded to roll call, and Mrs. Warren Williams reported on an improvement at the church which was a project of the society.

It was also decided to contribute financially to the sending of ten students to Summer Bible Camp at Sabina.

Mrs. Warren Williams led in the devotions using Scripture passages to bring out the meaning of "The Thought for the Day", which was followed with prayer, the singing of a hymn, the poem entitled "Friends."

Mrs. Williams also introduced Mrs. Martin G. Morris, the speaker of the afternoon who reviewed the book "Life and Laughter" by James Whitcomb Broughen, a Baptist minister, who delivered the sermon at the funeral of Will Rodgers.

The book brought out facts of life at its best and was a variation of humor and pathos, which Rev. Broughen, used in his many sermons.

She closed her talk with remarks on the final chapter of the book "Life Begins at Eighty" and Mrs. Annetta Rowe, Mother of Mrs. Morris led in the closing prayer.

During the social hour the hostess committee composed of Mrs. Herman Glass, Mrs. Harry Foster and Mrs. John Ritenour served dainty refreshments.

Mrs. Morris and Mrs. Rowe were guests for the afternoon.

Busy Bee Garden Club Plans for Flower Show At Jeffersonville Soon

Plans for the Busy Bee Garden Club's flower show today were just about complete.

It is to be held in the Jeffersonville High School on June 16 and the competition is open to everyone.

Because flowers are fragile and are at their best only a short time, the show is to be open for only two hours, from 2 P. M. until 4 P. M.

All exhibits must be staged by 12:30 P. M. the day of the show and they must be removed by 4:30 P. M. That means that the whirlwind show is being packed into approximately four hours—from the time the flowers are brought in and arranged for display until they are moved out leaving the show only a pleasant memory.

Under the rules and regulations, specimen flowers must be grown by the exhibitor and flowers for arrangements must be grown in Fayette County.

Each exhibitor is permitted to make no more than one entry in a class.

All specimens are to be shown in clear bottles furnished by the exhibitors, but foliage and accessories are permissable in the arrangements.

Juniors may enter all specimen classes and word is being spread around that entries of the non-members as well as members of the club are wanted in the show.

Mrs. Reuben French is the show's publicist.

* * *

OTHER committees are:

Hospitality—Mrs. Chester Janes, Mrs. Vernon Mason, Miss Pearl Hoppess and Mrs. Carl Janes;

Staging—Mrs. Ray Shoemaker, Mrs. Jess Crago and Mrs. Neal Conner;

Registration—Mrs. Hugh Creamer and Mrs. Flora Robbins.

Receiving displays—Mrs. John Sheeley, Mrs. Jesse Garringer, Mrs. Ray Barlett, Mrs. Ralph Davidson, Mrs. Ray Fisher, Mrs. Forrest Moore and Mrs. Ansel Creamer.

Clean-up—Mrs. Leora Booco, Miss Ruth Williams and Mrs. Glenn Brock.

Display cards—Mrs. Ralph Davidson.

Refreshments—Mrs. Ray Shoemaker, Mrs. Harry Hiser and Miss Louise Fults.

The show is to be made up of eight classes of arrangements featuring song titles and 25 classes for specimens.

For the arrangements there will be:

A class entitled "My Blue Heaven" in which all blue flowers and a blue or white container are used;

One for "Summer Lullaby" using a modified crescent;

"Down in the Valley," using all green or a combination of green and yellow green;

"When You and I Were Young Maggie," a mass arrangement;

"Garden of Roses" for an arrangement of roses;

"Tea for Two" a suitable arrangement for a buffet;

"China Town" an oriental arrangement;

"Wedding March" using white and green.

Of the 25 specimen classes, the rules specify one stem for all six classes where three stems are called for, an ornamental house plant, a planter (planted by the exhibitor) and an African violet.

The three-stem specimen classes are for gaillardia, petunias, pinks, snapdragons, annual sweet peas and hardy sweet peas. All stems are to be of the same color.

The other 16 classes all of one stem only, are for hybrid delphinium (any color); common delphinium (blue); lemon lily (any variety); Madonna lily; sweet william; hybrid rose (red); hybrid tea rose (yellow); hybrid tea rose (pink); hybrid tea rose (white); hybrid tea rose (blended); climbing rose (any color); floribunda rose (red); floribunda rose (pink); floribunda rose (yellow); floribunda rose (blended) and an old fashioned rose of any color.

About 9 percent of U. S. children from 1 to 14 and about 14 percent of those from 15 to 17 are orphans.

Eagles Get Set For Installation

Colorful Ceremony Is Next Tuesday

The annual installation of officers of Fayette aerie of the Eagles Lodge for the coming year is to be held next Tuesday evening in the hall of the Eagles Building at the corner of Fayette and Market Streets.

Always a colorful and impressive ceremony, the installation service is to start at 8 P. M.

In the light of the past, it is expected to be one of the biggest events of the lodge years and attract one of the biggest turnouts.

Earl G Allison is to take the oath of office and start his third year as the worthy president of the aerie.

Ernest Pummell is to be installed as vice president, Francis Marion Kennedy as the chaplain, Harold Hatmacher as the conductor, Ward Morris as the inside guard and Corwin Ellars as the outside guard.

Glenn B. Rodgers was reelected as treasurer and will start another term in that office and S. C. (Ched) Roberts is to continue in his place as a trustee.

Terms of the other officers do not expire at this time.

Following the installation, there is to be a lunch and fraternal get-together.

Inasmuch as this is to be one of the lodge's primary ceremonials, it is limited to members only.

Thief, 5, Pledges To Go Straight

CHARLESTON, S.C. (AP) — What may be the latest in applied child psychology came out of the theft of 75 cents by a five-year-old boy from a neighbor here.

His mother called the police. They lectured the boy, who promised to go straight.

Girl Scout Troop To Hold Picnic

The members of Girl Scout Troop 2 met Tuesday at Memorial Hall to plan their future meetings.

The leaders, Miss Wilma Jean Lee and Miss Esther Walton, led the discussion of the next meeting, which will be a picnic next Tuesday at the public park on Millikan Avenue.

The girls will take picnic suppers to the meeting, and will meet at 6:15 P. M. at Lu Ann Foster's home to go to the park together.

They decided to go through the membership roll alphabetically to appoint refreshment committees. Neila Couisins and Lu Ann will provide the refreshments for the June 14 meeting.

The session was opened with the repeating of the Girl Scout promise and laws, and at its close, Rosemary Hargo, Miss Lee and the president, Jacqueline Mosely, served refreshments.

City Recreation Commission Meets

The recreation commission, with all members present, met at the office of County Engineer, Charles Wagner and took up matters pertaining to the commission's activities.

The recent filling of the baseball diamond at the city park was reviewed and plans made to scalp the infield in the near future.

Plans for modernistic rest rooms were presented by Bill Willis, explained and discussed at some length, and given approval by the commission. It is a Jaycee project and will be a marked improvement to the city park facilities.

Other matters also were discussed at the session.

Tennessee Gas Asks Hike In Its Rates

WASHINGTON (AP) — The Tennessee Gas Transmission Co. of Houston, Tex., has submitted to the Power Commission arguments in support of a wholesale gas rate increase in 12 states.

The increase, amounting to $8,616,000 annually, applies to wholesale rates to 70 customers. It was requested by Tennessee Gas Nov 3, 1954 and has been in effect since Dec. 15. If the boost should be disapproved by the commission, refunds will be made for the period the higher rates have been in effect. Ohio is one of the states.

$90,000 Donated Udall Survivors

UDALL, Kan. (AP) — Private sources and organizations have contributed some $90,000 to aid survivors of Udall, the Kansas village wrecked last Wednesday by a tornado which caused heavy loss of life.

Joshua Logan, director of the movie "Picnic" being filmed at Hutchinson, Kan., gave $1,000.

Motorists who visited the stricken town over the weekend chipped in $6,600. The Red Cross has earmarked about one million dollars in disaster relief money for the tornado area including Udall and Blackwell, Okla.

Daylight saving time was first introduced by Germany in World War I and later adopted in England.

00 BRAND NEW INTERNATIONAL HARVESTER REFRIGERATORS

used only for demonstration

$25.00 delivers!

Never before have we been able to offer International Harvester refrigerators at such low, low prices. Frankly, we wouldn't do it now but we need the room.

We've a new shipment on the way—no place to put them—there's nothing to do but sell. So we're letting our floor samples go at a fabulous discount. *You* will make the profit.

These are not used . . . not "seconds" . . . not come-ons. We have only a few—all brand-new, genuine IH models—many with automatic defrosting—all with that famous "decorator" door.

"Mary Haworth's Mail"

DEAR MARY HAWORTH: I've never discussed my problem with anyone and I've never heard of a similar case, so I don't know whether it is unique.

I come of a large, wonderful, happy family. I married a grand man and had a perfectly normal marriage for 10 years; then he died suddenly. After a few years I married again. My daughter and I both love this man very much, but after three years there are aspects of our marriage that puzzle me.

When we were first married (his first marriage) we bought a house. As he is an only child, his mother, a widow, came to live with us. I welcomed her and really felt that we could all be happy together.

Soon I learned that the house is in my husband's and his mother's name—just as if I weren't his wife. Also that his bank account and bonds are the same. I've spoken to him about this, saying it's not the money I care about, but I consider it an unusual arrangement that makes me feel like an outsider instead of a partner. He explains that his mother lent him money, so that he wouldn't need a bank mortgage—thus he thought it only fair to make these arrangements.

Inlaw Calls Her Hand

Mike's mother (I'll call her Mrs. X) is naturally disagreeable, I've decided after three years. I've tried all the ideas derived from your columns and from books, for getting along; but I don't think she will ever change. Once when I tried talking to her plainly she said "If you don't like it, why don't you get out?" And that is her attitude.

I am thinking of leaving. I have a small income and can work and easily take care of my daughter. Of course we shall be terribly lonesome without him, but I can't live here any longer and retain my self-respect. Is there any other answer?

S. P.

Mother a Real Menace

DEAR S. P.: Your problem isn't unique. It is just about as prevalent, in different forms, as mom-mothers, and there are quite a few of them, as clergymen, psychiatrists and other specialists in human relations can tell you.

Mom-mothers are those psychologically childish women — self-centered and emotionally possessive to the nth degree—who are jealously opposed to having their sons grow up and "leave" them for another woman: a wife or sweetheart.

If a mom's son gets far enough along the road of normal male experience to take a wife, mom compulsively rejects the bride—as if they were natural enemies, in a lifelong fight to the finish, or until mom butts her out of the picture, somehow or other.

The mom-mother does her utmost, by sentimental strategy, to keep her son attached to her leading strings. Just as Mrs. X has done, for example, in letting herself into Mike's home-buying deal, thus promoting an arrangement that makes her (and not you) his financial partner and prospective chief beneficiary.

Expert's Slant

A first-rate mother, fairminded a wife's place in her son's life. If he marries, she accepts the readjustments in her life with good sense and good courage, and educates husband and wife to count on themselves (and each other) and socially mature, doesn't hog primarily, to provide the building materials of mutual security.

If help is needed that she can provide, she either gives outright, with no strings attached, or she lends in a businesslike way, neither expecting nor requiring more than businesslike return in due time. She treats the pair as a unit, while matter-of-factly recognizing her separate status, comparatively, in the overall relationship. This Mrs. X won't do.

If your reading for guidance, have you encountered Dr. Edward A. Strecher's book "Their Mothers' Sons" (Lippincott)? The author, wisely sympathetic to all sides of the "mom"-triangle, comes to much the same conclusion as you —namely, that marriage under a "mom's thumb is incompatible with mature-type self - respect. Thus the forthright remedy is to get out.

If you go, for justified reasons, Mike may finally see the light and follow. If he doesn't, you will have double proof that he is helplessly, umbilically tied to his mother, hence incapable of making a meaningful marriage.

1955 Dance Revue Thursday Night

Pupils of the Nancy James School of Dancing in Washington C. H. and Wilmington are to present the school's annual dance revue at 8:15 P. M. Thursday in Boyd Auditorium at Wilmington College.

The theme of the revue this year is "Dreams" and the program is marked by originality.

Mrs. Richard Tescher, the former Miss Nancy James of Washington C. H., is well known here. She was assistant instructor with the Barbara Allen School of Dancing for five years, but for the last two years, she has been the proprietor and instructor of her own school.

Romulo Urges U. N. Charter Change

AKRON (AP)—Gen. Carlos P. Romulo says the United Nations charter must be tailored to fit the new shape of the atomic world.

The Philippine soldier - statesman and former president of the UN General Assembly spoke before 300 United World Federalists here.

Two months after the UN charter was signed, he said, "the atom bomb was set off in Hiroshima. It is logical that there must be a rceolution in thinking comparable to the atomic revolution."

Prof. Ray Kumar Coubey, 59, of Banaras University, India, says he has 15 separate M. A. degrees and plans to acquire at least one more.

A MOTION PICTURE STORY of one of the most spectacular chapters in the conquest of the wold west is booked for Sunday, Monday and Tuesday at the Fayette Theater here under the banner of "Chief Crazy Horse". The title came from the famous Soulx Indian warrior who defied the nation and wiped out Gen. Custer's command at the Little Big Horn. Leading roles are taken by Victure Mature, Susan Ball and John Lund.

American Civilians Losing Privileges

FRANKFURT (AP) — The U. S. Army today took away the cheap housing, cigarettes, gasoline and other logistic support it had been furnishing hundreds of American civilians in West Germany.

The action was the result of the return of sovereignty to West Germany. Americans employed by the Army and those living in Berlin, still under Allied occupation, were not affected.

Memorize 500 Verses of Bible

Four Youngsters To Get Free Camp

Four Fayette County students have qualified for a week, free of charge, at the Rural Bible Crusade summer camp, as result of memorizing 500 verses of Scripture, according to announcement by the regional office of the Rural Bible Crusade at Wheaton, Ill.

The youngsters who have qualified are Benny Allen, son of Mrs. Gladys Allen, Route 4, who is in the fifth grade; Linda Lou Huff, daughter of Mrs. Mary Huff, Jeffersonville, who is in the seventh grade at Bookwalter school; Evelyn Sue Griffith, daughter of Mrs. Gladys Griffith, Route 4, who is in the fifth grade and Donna Simmons, daughter of Mr. and Mrs. Charles Simmons of near Jeffersonville, pupil in the eighth grade of the Bookwalter school.

In addition to the free week at summer camp, the location of which is not given in the announcement, ten other awards will be made.

The four Fayette County pupils are among 20,000 who have learned 500 Bible verses through the Rural Bible Crusade's program. The Rural Bible Crusade is non-sectarian, operating in a dozen mid-western states.

Each year more than 100,000 school children enroll in the Rural Bible Crusade.

Rodgers Chapel Plans Big Event

Homecoming Services To Start On Sunday

Plans for Homecoming Week at Rodgers AME Chapel on North Main Street have just about been completed, except possibly for a few of the last minute details, under the guidance of the pastor, Rev. Charles D. Johnson.

Homecoming Week is to start next Sunday when Dr. V. C. Hodges of Cleveland, secretary of the American Bible Society, will be the guest minister for the morning service.

Rev. T. W. Brown of Circleville is to have charge of the afternoon services, which are to start at 3:30 P. M. The choir of the Circleville church is to come here for this service, too.

The evening service at 8 o'clock is to be featured by the Columbiana Singers in a program of sacred music.

Ministers from other churches are to participate in the evening services during Homecoming Week. They all are to start at 8 o'clock.

* * *

REV. J. D. WHITE of Jeffersonville is to conduct the service Monday night; Rev. Harold Wingo, accompanied by the choir of the Zion Baptist Church in Chillicothe, are to be here for the Tuesday service; Rev. Robert Gates of Middle Run Baptist Church at Xenia is to have charge of the Wednesday night service; Rev. William Jones is to come from Roxabel in Ross County for Thursday night and for the Friday night service, Rev. Frank Kurl and the choir of his church are to come here from Wilmington.

For the afternoon service of Sunday, June 12, Rev. H. H. Teague and the choir of the Hosack Baptist Church in Columbus are to carry on the service and that evening there is to be a talent program.

Although this event has been designated a Homecoming Week, the committee in charge has extended the observance beyond that time limit. There is to be a dinner some time before, or in conjunction with, the popularity contest scheduled for June 24. At this time, the king and queen will be crowned as the climaxing event of the Homecoming.

All meetings are to be open to the public, Rev. Johnson said.

44 Students Will Graduate June 6

Forty-four seniors will receive bachelor degrees at Wilmington College's 81st annual commencement exercise Monday at 10 A. M. in Boyd Auditorium. This marks the smallest graduating class since 1945, due to the policy of excluding 1955 summer school graduates.

One honorary degree, Doctor of Laws, will be conferred on Raymond Cadwallader, principal of Western Hills high school, Cincinnati. Cadwallader, a Wilmington graduate, was chosen for his outstanding contributions to public school education. William H. Zimmer, vice president of the Cincinnati Gas and Elecgric Co., will give the commencement address.

The baccalaureate sermon will be delivered Sunday, June 5, at 3 P. M., by Dr. Henry J. Cadbury, chairman of the American Friends Service Committee.

Thirty-two of the graduates are from Ohio, including three from Wilmington, and one from Midland, in Clinton county. Nine are from other states, and three from foreign countries.

Restaurant Operators Are Urged To Accept More Responsibility

"Restaurant operators should accept greater responsibility for the sanitary condition of their establishments", Dr. N. A. Dyer, health commissioner of the Fayette County Health Department said today, in connection with the restaurant inspection and enforcement of the foodhandling regulations of Ohio's sanitary code.

"It is the duty of the manager of each public eating place to assure the public of clean, wholesome food which is stored, handled and served in such a manner as to prevent contamination that might lead to food poisoning or other disease", Dr. Dyer declared.

Although fortunately food poisoning outbreaks have been rare in Fayette County, Dr. Dyer said the danger is ever present and can be avoided only by constant vigilance and strictest observance of safe foodhandling methods. Figures collected by the U. S. Public Health Service show that in 1950, the last year for which tabulations have been completed, there were 347 disease outbreaks in the United States caused by food, with 10,174 persons involved and 5 deaths.

Therefore, Dr. Dyer urged managers to be their own inspectors and check every point of their operations.

"Make a complete inspection of every part of the restaurant at least twice a day", he advised. "Note any unclean conditions and order their correction. Be constantly alert for any unsanitary practices on the part of your employes. Check especially the sanitization of utensils. Except where sanitary paper service is used, insist on thorough sanitization of all utensils."

Dr. Dyer expressed his satisfaction with the cooperation the food service program has been receiving from the majority of operators and declared that his department was prepared to give all possible assistance to solve the sanitation problems of individual restaurants.

City Co-operating In New Sewer Work

City Manager James F. Parkinson said Wednesday that the city is cooperating in the work of extending a sanitary sewer on Campbell Street to Pearl Street and Pearl Street to the railroad.

All of the engineering work is being done by Parkinson, and work of laying the sewers will be done by the street crew.

The cost to abutting property owners will be about half of the normal cost for new sewers, Parkinson said, and, this expense consists of paying for cutting the trench, the sewer pipe and refilling the trench.

In the last two years some 1,200 feet of sewer has been laid in this matter, at comparatively low cost to the abutting property owners.

Chillicothe Firm Low On Paving Bid

HUNTINGTON, W. Va. (AP)—The W. H. Ringwald and Sons Co. of Chillicothe was low among three bidders on a major paving contract at the Lockbourne, Ohio, Air Force Base.

The bid of $796,678.20 compared with the U. S. Engineers estimated $748,443

Trustees Here Look Forward To Convention

3-Day Program Is Arranged For Gathering In Dayton

Township trustees and clerks of Fayette County today were looking forward to June 16-18 when the 28th annual summer convention of the state Association of Township Trustees and Clerks is to be held in Dayton.

Not all of them will be able to take it in, because this is the time of year when farmers are busy with corn plowing and hay making, but that doesn't keep them from hoping and wanting to spend at least some time at the convention.

Virgil Garinger, president of the Fayette County Association and a trustee in Perry Township, said it was impossible to tell in advance how many would go from here because the weather and the progress they make during the next couple of weeks will be the determining factors.

For those who arrive in the convention city early, the Montgomery County Association is to provide entertainment for Wednesday evening, the convention notice sent to Garinger said. However, it did not elaborate or intimate what the entertainment would be.

The business sessions have been scheduled for Thursday, Friday and Saturday mornings at the Dayton Biltmore Hotel.

* * *

ON THURSDAY afternoon, the group is to be taken on a trip through the vast National Cash Register Co. plant and on Friday afternoon there is to be a conducted trip through the fabulous Wright-Patterson Air Force Base just north of Dayton.

The big banquet is to be held Thursday evening.

The notice card suggested that hotel reservations be made as soon as possible and recommended three, the Biltmore, the Miami and the Van Cleve hotels.

The Fayette County Association holds four meetings a year; the last one was on April 1, but not enough was known about the convention time, place of program for discussion, Garinger said.

He expressed the hope that he could take in some of the sessions and predicted that a number of the township trustees and clerks here would avail themselves of the opportunity to see the NCR plant and the inside of the Wright-Patterson Air Force Base because such a chance was not like to come soon again.

Arbitration Move Shunned By Union

CLEVELAND (AP)—The Brotherhood of Locomotive Firemen & Enginemen, turning down the National Railway Mediation Board's proposal for arbitration, says it will take a strike vote.

The brotherhood is seeking 28-cent hourly pay boosts for firemen working a 40-hour week on the nation's major railroads. Present hourly rates were not available.

Brotherhood President H. E. Gilbert said his union could not accept the proposal because the railroads "have taken an adamant position" and "failed to make any offer designed to dispose of the controversy."

Joe Must Go Club Upheld By Court

MADISON, Wis. (AP)—The Wisconsin Supreme Court has ruled that the Joe Must Go Club did not violate the state Corrupt Practices Act when it sought last year to recall Sen. McCarthy (R-Wis.)

The high court reversed the decision of Circuit Judge Bruce Bellfuss of Neillsville who fined the club $200 on each of 21 counts of violating state election laws.

Justice Grover L. Broadfoot, who wrote the unanimous decision, directed that the case be remanded to circuit court and that all the counts be dismissed.

The club was started by Leroy Gore, former Sauk City editor.

When Henry VIII traveled, he carried his own lock with him and had it screwed to his bedroom door.

Sgt.Earl Binegar

Sgt. 1-c Earl Binegar, 23, who is about to start his sixth year in the Air Force, has just comleted his course in the Non-Commissioned Officers Academy at Anniston Arsenal Depot at Anniston, Ala. The son of Mr. and Mrs. Ernest Binegar, 436 South Fayette Street, he plans a military career, his mother said. A paratrooper with an airbourne outfit, Sgt. Binegar is now stationed at Camp Campbell, Ky. He went to Washington C. H. High School, but withdrew to enter the service before he was graduated.

Class of 1945 Plans Reunion

Affair Next Sunday At Fairground Here

Members of the 1945 graduating class of Washington C. H. High School today were planning to celebrate the 10th anniversary of their commencement with a class reunion at the Fairground here next Sunday.

The reunion program (if any) is being built around a basket lunch, a spokesman for the promoters said. He added "and we'll have it rain or shine;" presumably, the committee is counting on taking refuge in the grandstand or possibly making arrangements with the Fair directors for use of one of the buildings there suitable for such an affair.

But, if the weather is fair, the reunion will be held under the giant forest trees that dot the Fairground. There are benches within reach and the ground has been mowed and cleaned in the early stages of preparations for the Fair.

Postcards have been sent to members of the class and many of the teacners, telling them of the reunion plans.

It was ponited out that while many of the class are no longer living in this immediate community, few of them have not kept in touch with one or more classmates; it usually takes more than 10 years to wreck the mailing list of a class, he added.

Members of the class who have been taking an active part in planning the reunion and ferreting out the addresses of their classmates are Mrs. Hugh Rea, Mrs. Sam Wilson, Mrs. Dwight Martin, Mrs. Robert Mace, Mrs. Wayne Bower, Mrs. Richard Arnott, Miss Patricia Hillery, Malcolm Bloomer, Hal Summers, Richard Babb and Barton Montgomery.

4-H Club Activities

FEATURED 4-H'ERS

"Health" was the topic of a discussion at the last meeting of the Featured 4-H'ers. The youngsters discussed how to stay healthy and how to be neat-appearing.

Held at the home of the club advisor, Mrs. Warner Penrod, the meeting was opened by the president, Lana Huffman. Bonnie Wolfe gave the pledge to the flag; Oleta Hilliard read the secretary's report and Linda Cottrill read the treasurer's report.

Sharon Penrod led the group singing. Sue Henry was elected health chairman and Karen Brightman, safety chairman.

Refreshments were served by Karen Shiltz.

SCISSORS SISTERS

All the members of the Scissors Sisters gave demonstrations during the last meeting of the club, held at the Farm Bureau auditorium.

Kay Rhoades and Karen Stephenson showed how to lay a pattern and cut a skirt. Leoria Barnes demonstrated the use of tailor tacks in placing and cutting a dress and Mildred Ross cut out a dress. Carol June Wilson fitted a pattern and placed the material; Patricia Parker pinned down a pattern.

Nancy Stephenson helped cut an apron and Nancy Fryer cut and basted an apron. Carol King showed work on her needle book and Barbara Mathews basted a dress. Brenda Stricker and Carolyn and Donna Dill worked on tea towels, Joyce Lutz pinned a pattern on material and Betsy Vollette worked on a tea towel.

Kay, the president, opened the meeting and Patricia and Mildred gave the secretary's and treasurer's reports.

Mrs. Gerald Stephenson, the assistant advisor, announced that the farewell supper for Mr. and Mrs. Albert Cobb would be held at the Fairgrounds June 4. All 4-H members and their families are invited.

Donna and Betsy served refreshments. Hostesses at the next meeting will be Karen and Leoria.

The advisor of the club is Miss Shirley Cockerill. Mrs. Stephenson and Mrs. Frank Dill are assistant advisors.

Chicago Candidates Outline Expenses

CHICAGO (AP) — The two main candidates for the Chicago mayoralty in April have estimated their campaign expenses and the total was more than $850,000.

Mayor Richard J. Daley said his campaign expenses were between $450,000 and $500,000 for the primary and mayoralty elections. He said a statement that more than $1 million was spent on his campaign was incorrect.

The statement was made by Robert E. Merriam, defeated Republican candidate, who said $409,710 was spent in his campaign.

Violence Is Good Theater, Actor Cornel Wilde Claims

HOLLYWOOD (AP) — Violence in Hollywood films has been hit from all sides. Here's one man who defends it.

He's Cornel Wilde, actor, producer and now a director. He starred in and helped produce "The Big Combo," one of the films which brought forth a wave of protest about too rugged action in movies. Recently he directed himself in "Storm Fear." You can gather from the title that it is not a gentle subject.

"You can't get away from violence in drama," he said. 'When you have two people in conflict, it is bound to result in violence, either in words or action. If you do not have conflict, you do not have drama.

"There is nothing new about violence in the theater. 'Oedipus Rex' is certainly a violent play, and it has withstood the test of centuries.

"Shakespeare is replete with violence. Look at 'Hamlet.' The stage is littered with corpses at the end of the play.

When Orson Selles did 'King Lear' on TV, they showed an eye gouging. I was shocked by it, but not repelled. It was good theater."

Wilde admitted that the decriers of Hollywood had a case—"when violence is presented for violence's sake. If a brutal scene is shown for no reason except to shock, then it is bad. I think 'The Wild One' was an example of meaningless violence."

"The Big Combo" was criticized in England and elsewhere because of a scene in which gangster Richard Conte tortured Wilde. Conte put a hearing aid in the hero's ear and played a radio loudly. Wilde defended the scene as being subtler and less brutal than the senseless beatings in many films.

The answer to the problem is you, the movie goer. If you get a thrill from brutality on the screen, it will continue. If you think the studioes have gone overboard on violence, they will tone it down.

The ruler of Hollywood is still the ticket buyer.

Slav Ship Sinks

LONDON (AP)—A Yugoslav navy ship sank in a storm off the port of Senj in the Adriatii yesterday and 26 crewmen drowned.

Grain Storage Bin Loss Uncovered

DES MOINES (AP) — The Des Moines Register said today that a multi-million dollar loss in grain bin construction has been uncovered in the Department of Agriculture.

The Register says that one House committee has completed a secret report "on the laxity in the inspection of the bins in which the huge surpluses of corn, wheat and other grains are stored."

The Register also said a Senate group has evidence that 8,960 grain bins fabricated by one firm and sold to the federal government last year have been proved defective. The 8,960 bins were purchased and erected throughout the Mid west.

About 47 percent of U. S. fruits and vegetables move to market by truck.

Elevator Kills Boy

LUFKIN, Tex. (AP)—Billy Solly, 15, was killed Tuesday when his head was crushed against a wall by an elevator in a department store. Store officials said Solly, a receiving clerk, apparently had pulled himself up on the elevators back wall and was looking down the shaft as the elevator went up.

It is possible to lose consciousness in a severe fit of coughing.

Ohio Farm Group OKs Flexible Props

WASHINGTON (AP)—Most people responding to a poll conducted by Rep. Frank T. Bow (R-Ohio) favor the Eisenhower administration's flexible farm program, Bow said today.

Bow sent out 131,000 questionnaires to every home in his 16th Ohio District — Stark, Tuscarawas and Wayne counties.

Of the 23,091 who replied, Bow reported, 61 per cent said they approved flexible price supports.

Said Bow: "This kind of response in an area where there has been considerable decline in farm income and where some factions are doing their best to create political dissatisfaction is encouraging."

June May Set Record High In Retail Sales

Businessmen Counting On Consumers Shelling Out In Large Amounts

By SAM DAWSON

NEW YORK (AP) — Businessmen are counting on consumers making June a month of roses. Retail sales may well set a new high for the month Some expect sales to total 15½ billion dollars.

Industrial leaders at the same time are well aware that the month will have some thorns. Labor-management bargaining will come to a head in both the auto and steel industries. Production in both is expected to reach its peak and could start tapering off by the end of the month, even if labor peace is maintained.

But what is confidently expected to be the nations greatest vacation season will get under way this month.

People are in a spending mood. Merchants expect summer clothing to sell well this month Gasoline dealers expect to pump more fuel than ever into the nations cars. Grocers report consumers buying freely of better quality food.

The home building boom is rolling along with so much momentum that the construction industry expects this June to be one of its best.

Purchasing agents report that new orders are on the upgrade, insuring good industrial activity this month.

Industrial production in general, back now to its 1953 peaks, is expected to hold high in June before the usual summer vacation slump in July and August.

Unemployment has been declining slowly.

In the auto industry the emphasis will shift in June from the assembly lines to the dealers display rooms.

Dealers, with inventories of new cars at a record high, look for June to be a record sales month.

The steel industry enters June with production at a peak.

If a letdown in business is ahead the general belief is that June isn't the month for it to start.

Schools Re-Opened

ROME (AP) — Millions of Italian students flocked back to school today after an unexpected vacation due to a nationwide teachers' strike. The strikers, about 60,000 teachers in 3,800 schools called off the four-day walkout in response to parents' pleas.

Movie Violence Is Target Of No. 1 Hollywood Censor

HOLLYWOOD (AP)—The man who is trying to put a restraining hand on movie violence is square-built, English-born Geoffrey Shurlock.

Last year, the 60-year-old Shurlock succeeded Joseph Breen as Hollywoods production code administrator. He and his staff survey most scripts and all finished pictures and advise studios on censorship matters.

If films conform to the production code, they get a seal certifying them to be shown in American theaters. Rarely do producers try to sell movies without a seal. "The Moon Is Blue" was one of the few exceptions.

As Hollywood top censor, Shurlock tries to avoid the limelight. But because movie violence has become such a big issue, he granted an interview on the subject.

"We saw this coming last November," he said. "There was a notable increase in the amount of violence in scripts being presented. Those are the pictures that are in release now.

"We cautioned the producers that too much violence would bring a reaction from the public. I think we are making some headway in convincing them that violence should be toned down. But the results will not be evident in the theaters for another six months.

"One of the reasons I foresaw this trend toward violence was the Academy Awards. The top winners two years in a row were two extremely violent films — 'From Here to Eternity' and 'On the Waterfront.' It was inevitable that others would follow."

How does the code authority gauge the public's reaction to film content?

"The audience is our partner in this business," said Shurlock, veteran of 23 years with the code. "We watch the reaction carefully, through the Legion of Decency, the 13 women's groups that review pictures, the Protestant Film Council, plus the important trade and newspaper reviewers."

How does the code govern violence?

"We have no hard and fast rules. Rules would kill this industry. We can only do what Joe Breen suggested: 'Let's make pictures that are reasonably acceptable morally to reasonable people.'"

Twelve U. S. states have towns called Hamburg, says the National Geographic Society.

Health Service Due To Issue Polio Report

NEW YORK (AP)—Most or all your questions about the polio vaccine could be answered in an official report soon.

The U.S. Public Health Service is preparing this report, and it may be ready this weekend, Surgeon General Leonard Scheele says.

He said it will tell why release of vaccine was held up, and why some changes were made in testing regulations. It will also tell what "new knowledge" was learned during scientific discussions and studies recently.

President Eisenhower says scientific work during the delay period in vaccinations produced "new things about the way viruses behave in large-scale manufacture" and brought "new safeguards."

Little of this has been spelled out, but Dr. Scheele said the full report will do so.

That could go a long way toward answering the primary question in parents' minds—should they have their children vaccinated? Equally important is their question: Does vaccination reduce the risk of getting polio, and how much?

Roberts Keeps Phillies Out Of NL Cellar

Robin Responsible For 8 of 19 Wins Chalked By Team

By THE ASSOCIATED PRESS

So long as Robin Roberts wins 20 or more games a season, the Philadelphia Phillies will stay out of the National League cellar. Robin has won 20 or more the past five years and 1955 will be no exception if he continues at his present pace.

The Phillies have won just 19 games as they ride along in seventh place, and Roberts has won eight of them, including a neat six-hit 3-1 decision over the Chicago Cubs Wednesday night.

The Michigan State alumnus had only a 3-3 record on May 7, but in less than a month, he has won five games and shows a fine 2.30 earned run average.

The only teams he hasn't beaten are St. Louis and Cincinnati.

The Phils themselves seem to be snapping out of the doldrums. They've won 9 of their last 11 games, and, although, they are just above the Pittsburgh Pirates in the standings, they are only four games behind the third place New York Giants.

After the Phils scored two runs in the fourth, it was merely a matter of Roberts protecting the lead, which he did with no particular trouble. Ernie Banks hit a home run for the Cubs in the fifth for their only run.

Elsewhere in the National League, the Brooklyn Dodgers trimmed the Milwaukee Braves, 11-8; the Redlegs whipped the New York Giants 5-2, and the Cardinals slapped down the Pirates, 6-2.

In the American League, the Cleveland Indians shut out the Baltimore Orioles, 5-0; the New York Yankees won a doubleheader from the Kansas City A's, 3-1 and 6-1; the Chicago White Sox edged the Boston Red Sox, 4-3, and the Detroit Tigers blanked the Washington Senators, 9-0.

Duke Snider was the big gun in the Brooklyn victory, hitting three home runs and narrowly missing No. 4. His fourth try hit the right field screen and he had to settle for a double. Once before, Snider hit three home runs and just missed a fourth. He now has 15 home runs for the season.

Neither starter—Carl Erskine of the Brooks nor Gene Conley of the Braves—was around at the finish what with all the bombarding.

The Redlegs got one of their rare well pitched games and aided by home runs by Ted Kluszewski and Roy McMillen, had no trouble with the Giants. Joe Nuxhall held Leo Durocher's men to five hits. Nuxhall had a four-hit shutout until the ninth when Willie Mays hit a homer with Don Mueller on base.

Lois Arroyo tossed his sixth victory against no defeats for the Cards. Arroyo was backed by a 12-hit attack. Ken Boyer and Bill Virdon each collected three hits for the winners.

The Orioles didn't have a chance against Early Wynn. The Cleveland ace set them down with four hits. The Tribe is 3½ games behind the Yanks. Cleveland scored three times in the first inning and from there on it was a cakewalk for Wyn, although Al Smith hit an insurance home run with one on in the second.

Johnny Kucks stopped the A's in the first game for the Yanks, although he needed help from Tom Morgan in the ninth, and Whitey Ford went all the way in the second game. Neither team got a hit until the sixth ining of the opener. Irv Noren singled home Andy Carey to break it up in the ninth. Carey had a three-run homer in the nightcap.

Ted Williams went hitless in four trips to the plate in the Boston loss to Chicago. Sherman Lollar produced the big blow for the Pale Hose, a three-run homer. But they still needed a single by Chico Carasquel in the eighth to score the wining run.

Lefty Billy Hoeft tossed his second straight shutout for the crippled Tigers. He held the Senators to only two hits while his mates collected 10 hits. Jack Phillips, substituting for the sore-kneed Ferris Fain at first base got three.

Oklahoma A&M Win String Snaps

OKLAHOMA CITY (AP)—Oklahoma, beaten four straight times during the regular season by Oklahoma A&M, upset the previously unbeaten Aggies yesterday 3-0 to take a one game lead in their best of three series for a berth in the NCAA baseball tournament in Omaha June 10-14.

Tony Risinger bested Ken Kinnamon in the mound duel. Kinnamon was the winner in all four previous victories over the Sooners. Until yesterday, the Cowboys were unbeaten in 22 games.

Third baseman Chuck Harmon of the Redlegs played on the Toledo University basketball team that went to the finals of the NIT tournament at Madison Square Garden in 1943.

Fishing should pick up in Little Darby Creek, Marysville, Ohio. A truck hauling live fish overturned in the creek.

Rookie Bob Speake of the Cubs played for a service team in Japan. His team won 99 games, lost eight and tied one.

Golfing Gals Out in Force

Mrs. Wayne Shobe Sets Pace With 47

Cool but sunny weather brought the feminine golfing contingent flocking to the Country Club here for Wednesday's Ladies Day when 28 to them teed off for the morning's sport on the fairways, followed by luncheon in the club house at noon and cards for many in the afternoon.

Mrs. Wayne Shobe set the pace with a 47, her best of the season. Mrs. Ralph Bray came through with a 52, of which only 14 were putts. Mrs. Dwight Coffman was third with a 58.

Mrs. Marvin Roszmann took the honors for the low net score (Gross minus handicap) with 59 gross, minus handicap of 22 for a net of 37.

Mrs. Elmer Reed with 67 - 28 for 39 and Mrs. Bill Junk with 61 - 22 for 39 were tied for second place.

Mrs. Shobe with only 12 strokes on the green took the putting honors, Mrs. Bray with 14 was second and Mrs. Paul Pennington with 15 was third.

Blind Bogey winners were Mrs. Don Lange, Mrs. James Martin and Mrs. Bob Link.

Because the dentists of south-central Ohio are to gather at the Country Club here for their district meeting next Wednesday, the Ladies Day will be moved back to Thursday. The hostesses for it will be Mrs. Reed and Mrs. Everett Waddell.

Scores for Wednesday's golfing were: Mrs. Howard Osborne 79 - 36 - 43; Mrs. Scott Harner 80 - 36 - 44; Mrs. Bill McLean 62 - 21 - 41; Mrs. Wayne Shobe 47 - 8 - 39; Mrs. Ralph Bray 52 - 11 - 41; Mrs. Ed Vollette 70 - 26 - 44; Mrs. Dwight Coffman 58 - 18 - 40; Mrs. Paul Pennington 66 - 25 - 41; Mrs. Elmer Reed 67 - 28 -39; Mrs. J. O. Garringer 57 16 - 41; Mrs. Dick Willis 62 - 22 - 40; Miss Kathleen Davis 65 - 24 - 41; Mrs. Ben Wright 83 - 42 - 41; Mrs. Roger Littleton 62 - 20 - 42; Mrs. Robert Hagerty 65 - 24 - 41; Mrs. William Junk 61 - 22 - 39; Mrs. Robert Link 66 - 26 - 40; Mrs. Robert Green 72 - 30 - 42; Mrs. Marvin Roszmann 59 - 22 - 37; Mrs. Robert Lisk 83 - 42 - 41; Mrs. Don Lange 69 - 29 - 40; Mrs. C. Hayes 76 - 34 - 42; Mrs. Ken Johnson 70 - 29 41; Mrs. Max Thomas 73 - 34 - 39; Mrs. Robert Newhouse 67 - 27 - 40; Mrs. Frances Boyle 72 - 32 - 40; Mrs. James Martin 64 - 23 - 41 and Mrs. Mac Wilson 71 - 32 - 39.

Snider Almost Matches Record

BROOKLYN (AP)—Two yards of chicken wire was all that prevented Duke Snider from joining the select group of seven sluggers who have hit four home runs in one game.

The center fielder of the Brooklyn Dodgers had to settle for three homers and a double as the Dodgers defeated Milwaukee Braves 11-8 last night.

Snider walloped three homers one each off southpaw Roberto Vargas and righthanders Gene Conley and Ernie Johnson. Against lefthander Chet Nichols in the eighth inning, Duke lined a pitch to the screen in right, just six feet short of his fourth homer.

Celina Pacer Easy Winner At Lebanon

LEBANON, Ohio (AP)—Ted Armstrong, owned and driven by George Ward of Celina, swept both heats of the featured Class CCC pace last night at the Lebanon Raceway's spring harness race meeting.

Ted Armstrong, an eight-year-old black gelding, set a new record for himself as he won the first heat in 2:07 1-5 and then came back to win the second heat in 2:11 2-5.

The performances last night gave Ted Armstrong two firsts, a second and a third in his first four starts this year.

Guy Colby, an eight-year-old bay gelding owned and driven by Arlo Edwards of Sunbury won the $500 Class B trot to chalk up his third victory in four starts. His time was 2:12 2-5.

Junior McNutt (left) and Floyd Chaney (right) of 231 Oakland Avenue and their families not only have had some tastey catfish steak but also have some on ice for another treat. The big slabs of fish were sliced from a 20-pound 35-inch long shovelhead catfish they took off of their trot line they set in Paint Creek about 3 miles above Bainbridge. A chub minnow was used for bait. There were 30 hooks on the trot line, but only the big one was on the line when they "ran" it with their boat at 6 A. M. the second night they had spent on the creek bank. McNutt said: "It took both of us to pull her in . . we worked a small rope through her gill and out her mouth." Incidentally, the big shovelhead also provided another delicacy --catfish roe.

Idle Montreal Tops IL Flag Race

MONTREAL (AP)—The big question around the International League today is "who do you like for first plate?"

Montreal jumped into the top spot last night without even playing. The Royals were rained out with the Columbus Jets and the Havana Sugar Kings dropped the defending champion Toronto Maple Leafs to second place by blanking them 8-0.

In the other games, the Richmond Virginians extended their winning streak to four games as they downed the Rochester Red Wings 4-1 and the Syracuse Chiefs rocked the Buffalo Bisons 5-1.

Joe Nuxhall May Be Top Redleg Hurler

NEW YORK (AP) — It begins to look more and more as if Joe Nuxhall, who pitched in his first major league game when he was 15 years old, may provide at least part of the solution to the Cincinnati Redlegs' pitching problems.

The search for consistent winning hurlers has been going on for much longer than Redleg bosses care to recall but Nuxhall, now 26, showed more signs yesterday that he may be one of the fellows they've been looking for.

Joe limited the New York Giants to five hits as the Reds took a 5-2 decision yesterday for their first victory over the world champions this season. And he had a shutout until the ninth inning when a walk to Don Mueller and Willie Mays' home run gave the Giants their two runs.

It was Nuxhall's fifth triumph as against three defeats and it was his fourth complete pitching assignment. He has pitched four of the seven complete games turned in by all of the Redleg hurlers.

Nuxhall first came to the Reds from his home town of Hamilton in 1944 and pitched two-thirds of an inning against the St. Louis Cardinals when he was 15.

Then followed a long tenure in the minors as he sought to curb wildness. He came back to the Reds in 1952 and had a 1-4 record. The following year he was 9-11 and last year he topped the Redleg pitchers with a 12-5 mark.

Babe Ruth Era Ended Just 20 Years Ago

NEW YORK (AP)—Twenty years ago today an era ended. Babe Ruth hung up his spikes for good.

He had played his last game May 30 against the Philadelphia Phillies. He went to bat only once and did notning, so he retired to the clubhouse. That was the last time the Babe's name appeared in a major league box score.

He was with the Boston Braves at the time as vice-president, asplayer.

His sight was failing and he was hitting only .181 when the end came. It came slowly, though.

It wasn't until three days later, June 2, that Ruth officially ended his baseball career and he was beaten to the punch.

Officially, he quit. But he admitted later that he was fired by Judge Emil Fuchs, president of the Braves.

Standing in the clubhouse, he told a boy to ask Fuchs to come see him. He told the boy to inform Fuchs he was quitting. He had gone as far as he could.

A few minutes later, some newsmen trooped into the clubhouse and Babe asked them what was up. They said they were sorry and he asked them why.

They told him he had been fired.

"So I got fired before I could quit," he said later.

International Golf Roster Complete

WASHINGTON (AP) — The field was completed today for the $150,000 international golf championships with the receipt of entries from abroad.

For the four-day tournament starting June 9 at Columbia Country Club in suburban Chevy Chase, Md., Denmark and Sweden entered as a team representing Scandinavia. Twenty-four other nations have two-man teams.

Cadillac

Has Its Own Vocabulary!

Over the years there has come into being what amounts virtually to a special Cadillac vocabulary.

Certain words and phrases have so long and so often been used in association with Cadillac that they almost automatically call the car to mind.

When the talk is of motor cars, who can hear the word "prestige" without thinking of Cadillac?

It is likewise true of "distinction" . . . of "luxury" . . . of "pride of ownership" . . . of "satisfaction" . . . of "comfort" . . . of "long life and dependability" . . . of "beauty" . . . of "impressiveness" . . . of "value"—and of dozens of other words used to denote superiority.

In a sense, these are Cadillac words—and they actually sound strange when employed in any other connection. Even when used in the promotion of another automobile, they still suggest the "car of cars".

Naturally, words like these can become inseparable only from a product which deserves them. In the case of Cadillac, it has taken half a century of the strictest adherence to the highest automotive standards to win this public approval.

Eternal vigilance is the price of this reputation.

* * *

Most people, of course, realize that these wonderful words apply to Cadillac. But too many have not yet personally found out why.

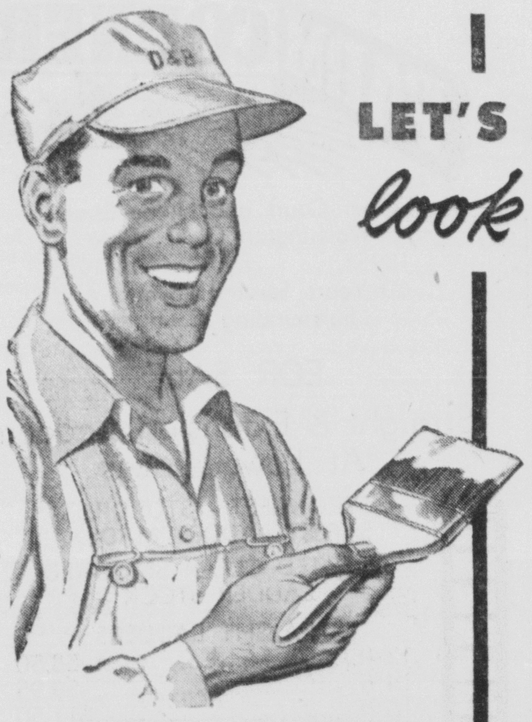

If you are among these—come in and see us today. We will give you the keys to a new 1955 Cadillac—and you'll know in a single hour why Cadillac has its own vocabulary.

You'll know, from personal experience, that when you speak of "prestige" and "distinction" and "luxury" and "pride of possession" and "value"—you are speaking of the Standard of the World.

We have the keys—and the car—and a real welcome waiting for you.

LET'S MAKE YOUR HOME look like a million

New Dean & Barry house paint with Poly-Lin looks smoother, looks glossier, looks better longer! And this means the most beautiful paint job you've ever seen, the most durable paint job your dollars can buy.

Here's why: Poly-Lin is the 100% pure polymerized linseed oil that gives Dean & Barry house paint extra smoothness, extra gloss, extra strength and toughness all the way through. No thinned-out places to prematurely weather and wear. No unsightly brush marks to spoil appearance. Dust and dirt wash off easily from the smooth, higher gloss finish. Paint jobs look better, last much longer to save important dollars for you.

No extra cost—meaning you benefit, too, because you pay nothing extra for the superior beauty and durability the new Poly-Lin blend gives. So why pay more—why take less? See us today, or have your painter-decorator come in.

TODAY'S GARDEN-GRAPH

Reg. U. S. Patent Office

Time to Feed Delphiniums

By DEAN HALLIDAY

Distributed by Central Press Association

JUNE is delphinium month and if you have not already fed your plants, do it now. The large flowered types require a heavy annual meal. The small-spiked plants eat less. If they are overfed they are apt to grow "leggy" and then topple over in a storm.

All delphiniums are hearty eaters. Therefore, the accompanying Garden-Graph shows an easy method of feeding established plants. Sprinkle a ring of commercial fertilizer (4-12-4) around each plant, as illustrated. Be sure to keep the fertilizer away from the crown. Work the feeding into the soil and then water it down.

A slow acting fertilizer is safer than one that acts quickly. Many growers recommend using one part muriate of potash to three parts of bonemeal, thoroughly mixed.

Another recommended method of feeding delphiniums is shown in the Garden-Graph. However, it entails a little more work. Punch one or two holes 12 to 18 inches deep and about two inches in diameter near each plant. Use a crowbar to punch the holes. Fill them with plant food.

If you would like exhibition blooms feed the plants with liquid manure at weekly intervals. This should be started when the flower spikes begin to form.

Because of their height, delphiniums should be staked. Place the stakes at planting time. This will avoid later injury to the roots.

Don't give delphiniums deep cultivation during the summer. The roots are very near the surface.

New Oil, Gas Area In Ohio Claimed

WASHINGTON (AP)—The Interior Department says gas and oil have been found in five east Ohio counties, in an area spanning 880 square miles.

Douglas McKay, secretary of the interior, said yesterday a survey of the Clinton Sands section indicated fuel possibilities in the area.

The Clinton Sands tract covers central and western Stark County, part of eastern Holmes County, Northern Tuscarawas County, eastern Wayne County and part of Southern Summit County.

Murder Trial Is Delayed Again

McCONNELSVILLE (AP)—Another postponement, until next Monday, has been announced in the first degree murder trial of Mrs. Frances Sloan.

The trial of Mrs. Sloan, 28, accused of slaying her 16-year-old nephew, Kenneth Strohl, recessed last Friday until Tuesday. Then illness of Common Pleas Judge Carlos Reicker, suffering from a virus infection, caused postponement until Thursday of this week. The postponement until Monday then was announced because of Judge Reicker's condition.

Adlai Urging More Federal Health Activity

Medical School Aid, Reasearch Said Big Needs In Nation Now

NEW YORK (AP) — Adlai E. Stevenson said today the federal government should help to subsidize worthy private health insurance programs, step up its aid to medical research and provide for assistance to medical schools.

Stevenson, former governor of Illinois and 1952 Democratic presidential candidate, was a speaker for the formal dedication of the $10 million Medical Science Building of the New York University-Bellevue Medical Center.

Stevenson cited what he called "the developing public attitude" that "methods must be worked out for making medical service better available to all who need it, and this without crippling cost to anyone."

In pleading for "an acceleration" of the medical research program, he said:

"It seems a little strange that the Department of Agriculture will spend this year for research on plant and animal diseases ten million dollars more than the Public Health Service is spending for research on cancer, arthritis, mental, illness, neurological and heart disease combined. This just doesn't make sense."

• • •

"THE MOST promising approach to the problem of distribution of medical service," he said, "lies in the development of voluntary, private, prepayment health insurance programs.

"It is an important element in this prepayment insurance development that it represents a private, nongovernmental answer to a problem requiring group action.

"Certain barriers to its development must be broken down. In half the states there are restrictive laws, passed in haste, which prevent responsible private groups of doctors and patients from working out the effective prepayment plans they consider best.

"And it is recognized, fortunately by the leaders of both political parties, that some degree of government assistance in developing this new program is necessary."

Such assistance, Stevenson said, should be in the form of "long-term, low-interest-rate loans to new prepayment groups and to subsidize part of the cost of comprehensive service to groups including some whose financial means are limited but whose medical needs are no less great."

"And it is imperative," he said, "that discussion for improved distribution of medical service not be frustrated by the familiar shouts of socialism that bedevil all forward steps in our country."

Urging federal aid to medical schools, Stevenson said:

"The expressed concern was about federal domination. But research in these schools has been subsidized by many millions of dollars of federal grants without a hint or whisper of domination."

Miss Esther Marting

Miss Esther Marting, daughter of Mr. and Mrs. Sam Marting of the CCC Highway, received her Associate in Arts degree from Stephens College at Columbia, Mo., at Tuesday's commencement and returned home Wednesday with her parents. She is to leave later this month for Poughkeepsie, N. Y., where she will teach in the Vassar College nursery school during July. She plans to return here and spend August with her parents before going to Tallahasee, Fla., for the fall term in Florida State College.

"The basic Chinese food, rice." This was varied with side dishes "from seaweed to birds nests."

Their recreation, after they came out of solitary confinement, included two hours exercise daily and writing letters home, none of which got through until after the geneva conference in April 1954.

The men all agreed conditions "improved tremendously" after the Geneva conference. They spoke little about conditions before the conference.

The men were shot down between September 1952 and January 1953. They spent most of their imprisonment in Mukden, Manchuria. They were moved to Peiping April 8 and faced trial on four hours notice May 14.

Cameron, replying to a question, said he thought United Nations Secretary General Dag Hammarskjold "had very much to do with" getting them released. He said "it will be one of the big moments of our lives" when they get to meet Hammarskjold. "I think he's doing a wonderful job."

Board Enlarged For Junior Fair

3 Girls and Boy Named To Seats

Four new offices were created and three girls and a boy were elected to fill them at the meeting of the Junior Fair Board Wednesday in the Farm Bureau auditorium.

Elected to fill the new positions were Roger Bonham, assistant president; Barbara Sue Kneisley, assistant treasurer; Marilyn Writsel, assistant secretary and Marilyn Heistand, assistant news reporter.

Business included Albert Cobb's suggestion that members of the Future Homemakers of America enter the style review competition in future years. At present, the entrants are 4-H members.

Cobb also suggested that the junior board print posters listing the names of all donors to the Junior Fair, and display them in the business windows of the donors. Roger Gorman and David Dray volunteered to do the groundwork for the plan.

David Dray suggested that the board print copies of its constitution and send to the advisors of all chapters of the groups represented on the board, the FHA, FFA and 4-H organizations.

Karma Kay Knox submitted the secretary's report in the absence of Frances Turner.

Guaranteed Wage

(Continued from Page One)

ing from the estimated 20,000 Rouge plant auto workers, Stellato said the UAW was adamantly against any renewal of a five-year contract.

"We're not going to delay the fight for the shorter work week for five years," Stellato said. The UAW has said its next proposal, after the year-around pay plan, is reducing the present 40-hour work week without loss of pay.

Stellato asked the Ford plant demonstration for a show of sentiment between the UAW's guaranteed wage demand and the Ford plan to allow company workers to buy Ford stock at half price.

The crowd of workers booed the company stock-purchase plan and cheered loudly for a guaranteed pay plan.

A secrecy agreement between UAW and Ford negotiators prevented any explanations of those talks, but this did not apply to the union negotiations with General Motors which have been idling along behind Ford, but may take on a new importance because of the closeness of the Ford and GM strike deadlines.

Woman Is Injured When Hit by Auto

Miss Lizzie Tway, who lives on North North Street opposite Grace Methodist Church, was badly injured about noon Wednesday when struck by an automobile driven by Maynard Carr, city.

Miss Tway was walking from the west side of North Street to the Grace Church corner when the Carr automobile headed east on Market St. swerved south into North Street and struck her, knocking her down, fracturing the small bone of her left leg and inflicting other injuries.

She was taken to Memorial Hospital in the Gerstner ambulance; where she still is a patient.

Police investigated the accident and announced that a charge of failure to yield the right of way would be placed against Carr.

Action Nearly Final On Drug Bill

COLUMBUS (AP)—The Ohio House yesterday virtually completed action on a bill to impose long prison terms in Ohio's stepped up war on illegal narcotics.

With only one dissenting vote, the House passed the Senate-approved bill drastically increasing penalties for drug peddlers, especially those dealing with minors. House changes in the Senate bill only increased the penalties approved by the Senate.

At the same time, the House Judiciary Committee voted 21-1 to postpone indefinitely further consideration of a proposal to change Ohio's utility rate-making formula. Such committee action usually kills a bill.

Little League Fund Hits Goal

More Can Be Used For Minor League

"It's in the bag, but the bag's still open."

That's how Walter Patton, chairman of the Little League's finance committee, describes the fund drive for the budding baseball program for boys here.

"There are a lot of people who still want to give," Patton pointed out, "and we of the finance committee don't see any point in frustrating them just because we've hit our original quota."

The recent decision by the League board to buy full uniforms for four minor league teams is going to put an added strain on the League budget, he said. "That will cost about $500, so any additional money we get won't be wasted," he declared.

Latest addition to the League kitty is a $50 contribution from the Boosters Club. The contribution moves the fund over its $2,500 goal.

The perspiration of the League financiers and the contributions of the public will pay off starting next Tuesday, when the first game will be played on the Wilson Field diamond.

Romulo 'Wary' Of Red Moves

COLUMBUS (AP)—Carlos Romulo, Philippine envoy to the United States, says he believes "we should be wary of Red China's release of four U. S. airmen.

He said "We don't want to be caught by a series of apparent, conciliatory moves . . . and then suddenly be placed on the defensive."
